

ACKNOWLEDGEMENT

It is great pleasure for me to thank many people who made this thesis possible.

First of all, I would like to express my sincere gratitude to my honourable supervisor Dr. Basudeb Basu, Professor, Department of Chemistry, University of North Bengal, Darjeeling, for introducing me to the fascinating field of “Synthetic Organic Chemistry” and allowing me to join under his research group. His constant, invaluable guidance and motivation throughout my entire research work make my dream complete at the end.

I would like to thank also Dr. Goutam De, Chief Scientist & Head, Nano-Structured Materials Division, CSIR-CGCRI, Kolkata, for the characterization of my catalyst.

I express my sincere gratitude to Dr. A. K. Nanda, Dr. P. Ghosh and Dr. S. Das, Department of Chemistry, NBU for taking NMR spectra of organic compounds synthesized by me.

I would like to acknowledge Dr. Biswajit Sinha, Department of Chemistry, NBU for taking AAS (Atomic Absorption Spectrometry) of my samples.

It is my great pleasure to acknowledge Shreyasi Chattopadhyay, CGCRI, Kolkata and Shibaji Basak, IACS, Kolkata for their valuable contribution in my scientific work.

I would like to thank my past and present labmates, Sekhar da, Bablee di, Susmita Di, Kinkar, Babli Di, Debasish, Samir, Suchandra, Prasun, Sankar and Santanu da for their help and active co-operation throughout my research period.

I convey my special thanks to Bhaskar, Jayanta, Antara, Dibakar, Sujan, Sumanta, Kausik Da, Prasanjit, Gourab, Dipu and Mossaraf for their constant support and help.

It was a nice time to spend together with Bhaskar and Kinkar inside and outside the research field in last two years. I have also been encouraged and motivated by Hriday da, Biplab, Manai, Partha, Mridul and Atmaban for my research work. All of them are my real friends.

I would like to express my thanks to CSIR, New Delhi, for awarding me Junior Research Fellowship (CSIR-JRF) as well as University of North Bengal and DST, New Delhi for providing the infrastructural facilities.

I express my full gratitude to Dr. M. N. Roy, Head and all respected teachers, office staff as well as all research scholars of Department of Chemistry, University of North Bengal.

I sincerely thank Dr. Prabir Roy, former Principal, Raiganj Surendranath Mahavidyalaya and Dr. Kamala Bhattacharyya, Head, Department of Chemistry, Raiganj Surendranath Mahavidyalaya, Raiganj for allowing me to complete my pending research work.

I wish to thank UGC, Kolkata for giving me the Teacher Fellowship under UGC-FDP scheme.

I am grateful to my parents Sri Sukumar Ghosh and Smt. Sumitra Ghosh for their continuous prayers for me. They always supported me for my educational decision.

I appreciate the interest and enthusiasm shown by my brother Akash, my sister Sujata and all other relatives around me. They have always been with me whenever I needed them.

I should thank my wife Parna and my little daughter Drishti for their well understanding and allowing me enough time in last two years, without their support this work would not have been possible.

The story will remain incomplete if I fail to express my thanks to the Lab no. 103, Dept. of Chemistry, NBU where I have done my research work and my Laptop where I have made the draft of my thesis.

I would like to express my sincere apologies for any mistake on my part or any word or behavior of mine that may have hurt anyone working with me.

Finally despite best of my efforts and sincerity I might have committed some unintentional errors and mistakes in my thesis. Suggestions and criticisms from learned professors will be thankfully accepted.

Thank you.

Sujit Ghosh
