

TABLE OF CONTENTS

	Page
INTRODUCTION	1
MATERIALS AND METHODS	14
Animals	14
Mitogens	14
Isotopes	15
Serum	15
Collection of complement	16
Raising of anti-thymocyte serum (ATS)	16
Lytic reaction of normal mouse lymphocytes with ATS	17
Thymectomy of neonatal mouse	18
Treatment of neonatally thymecto- mized mice with ATS	19
Cell suspension	19
Cell viability test	20
Measure of blastogenesis	20
Measure of the synthesis of macromolecules	21
Measure of DNA synthesis	21
Measure of RNA synthesis	23
Measure of protein synthesis	23
Cytotoxicity test	23

	Page
Histological preparation	26
RESULTS	27
Blastogenic transformation of lymphocytes <u>in vivo</u> with mitogenic stimulus	27
Synthesis of DNA after <u>in vivo</u> stimulation of the lymphocytes	29
RNA synthesis with <u>in vivo</u> stimulation of the lymphocytes	32
Protein synthesis by the lymphocytes after <u>in vivo</u> stimulation with mitogens	34
Cytotoxic function of the lymphocytes stimulated <u>in vivo</u> with different mitogens	36
Study of the lymphoid cells <u>in situ</u> after stimulation with different mitogens	39
DISCUSSION	43
SUMMARY	68
APPENDIX	
Figures	74
Tables	107
