PART-I

STUDIES ON THE REDUCTION WITH LITHIUM-ETHYLENEDIAMINE ON TRITERPENOIDS

CHAPTER—I

A short review on the metal dissolving reactions in presence of bases ... 1

CHAPTER—II

SECTION A

Studies on the reductive action of lithium on triterpenoid lactones in ethylenediamine

Introduction ... 43

Treatment of lithium-ethylenediamine on triterpene tertiary lactones ... 45

Reduction of triterpene secondary lactones with lithium-ethylenediamine ... 57

Lithium-ethylenediamine reaction on sterically hindered triterpene lactones ... 69

Lithium-ethylenediamine reaction on triterpene bromo lactones ... 71

SECTION B

Studies on lithium-ethylenediamine reaction on 3-keto triterpenoids ... 78

Studies on lithium-ethylenediamine reaction on triterpenoid hindered esters ... 80

CHAPTER—III

Experimental 85

References 126

Page

PART—II

ACTION OF HYDROGEN PEROXIDE ON TRITERPENOID ALLYLIC ALCOHOLS

CHAPTER—I

A short review on some oxidative reactions on pentacyclic triterpenoids ... 130

CHAPTER—II

SECTION A

Results and discussion on the action of H_2O_2 in presence of p-TsOH on olean-12,15-dien-3,11,diol ... 163

SECTION B

Introduction 185

Discussion on H_2O_2/TsOH reaction of lup-1(2)-en-3β-ol ... 188

CHAPTER—III

Experimental 195

References 220

PART—III

ACTION OF N-BROMOSUCCINIMIDE ON TRITERPENE ACIDS AND ESTERS

CHAPTER—I

A short review on NBS reaction on triterpenoids.. 225

CHAPTER—II

Discussion on -

Treatment of NBS on acetyl methyl aleuritolate 253

Treatment of NBS on acetyl methyl oleanolate 261

Treatment of NBS on acetyl methyl betulenate 263

Treatment of NBS on acetyl betulenic acid 270

Page

CHAPTER—III

Experimental 274

References 292

PART—IV

CHEMICAL INVESTIGATION OF THE ROOT OF LEUCAS ASPERA SPRENG

CHAPTER—I

Introduction 297

CHAPTER—II

Morphological features of Labiatae family, Leucas and Leucas aspera spreng ... 299

CHAPTER—III

Extraction 301

Isolation of stigmasterol 301

Purification and characterisation of a new triterpene dihydroxy lactone-leucolactone ... 302

Acetylation of leucolactone ... 303

Oxidation of leucolactone ... 304

PMR spectral data of leucolactone ... 305

NMR spectral analysis of leucolactone acetate ... 305

NMR spectral analysis of diketoleucolactone ... 311

Mass spectral analysis of leucolactone, leucolactone acetate and diketoleucolactone ... 315

CHAPTER—IV

Experimental 320

References 328
