| LIST OF APPENDICES | xxx |

| | Page no. |
|--------------------------------|---|
| Chapter 1: Introduction | 1-55 |
| Section - A | 2-41 |
| 1.1 | Introduction 2-4 |
| 1.2 | History of Urban Growth 4-24 |
| 1.2.1 | World Scenario of Urban Growth 4-6 |
| 1.2.2 | Indian Scenario of Urban Growth 6-10 |
| 1.2.3 | Urban Growth Scenario of North Bengal 10-18 |
| 1.2.4 | Evaluation of Siliguri and Siliguri Planning Area 18-24 |
| 1.3 | Concepts Related to Urban Growth 24-26 |
| 1.3.1 | Urban Area 24-25 |
| 1.3.2 | Urban Growth and Urbanization 25 |
| 1.3.3 | Urban Sprawl 25-26 |
| 1.4 | Statement of the Research Problem 26-28 |
| 1.5 | Objectives of the Study 28 |

| | | |
|---|--|--------------|
| 1.6 | Hypotheses | 28 |
| 1.7 | Data Requirement and Sources | 28-29 |
| 1.8 | Literature Reviews | 29-38 |
| 1.9 | Study Area | 38-39 |
| 1.10 | Research gap | 40-41 |
| 1.11 | Scope of the Study | 41 |
| Section - B | | 42-51 |
| 1.12 | General Profile of the Study Area | 42 |
| 1.13 | Relief | 42 |
| 1.14 | Drainage | 42-43 |
| 1.15 | Geology | 43-44 |
| 1.16 | Climate | 44-45 |
| 1.17 | Demographic profile | 45-47 |
| 1.18 | Workers Profile | 47-49 |
| 1.19 | Connectivity | 49-51 |
| | References | 51-55 |
| Chapter 2: Analysis of Land Use and Land Cover Pattern | | 56-91 |
| 2.1 | Introduction | 57 |
| 2.2 | Geoinformatics Technique in Land Use and Land Cover Classification | 57-58 |
| 2.3 | Land Use and Land Cover Classification System | 58-60 |
| 2.4 | Definitions of Land Use and Land Cover Classes | 60-61 |
| 2.4.1 | Built-up Land | 60 |
| 2.4.2 | Agricultural Land | 60 |
| 2.4.3 | Vegetation | 60 |
| 2.4.4 | River and Lakes | 60 |
| 2.4.5 | Wasteland | 61 |
| 2.5 | Methodology for Land Use and Land Cover Analysis | 61-67 |
| 2.5.1 | Data Acquisition | 61-62 |
| 2.5.2 | Pre-processing of Images | 62 |

| | | |
|--|--|---------------|
| 2.5.3 | Image Classification | 62-63 |
| 2.5.4 | Post Editing of Classified Images | 63 |
| 2.5.5 | Ground Truth Data Collection and Verification | 63 |
| 2.5.6 | Accuracy Assessment | 63-67 |
| 2.5.6.1 | User's and Producer's Accuracy | 64-65 |
| 2.5.6.2 | Overall Accuracy | 65 |
| 2.5.6.3 | The Kappa Statistic | 65-67 |
| 2.6 | Land Use and Land Cover Map of Siliguri Planning Area | 67-75 |
| 2.6.1 | Land Use and Land Cover Map of 1992 | 67-68 |
| 2.6.2 | Land Use and Land Cover Map of 2001 | 68-70 |
| 2.6.3 | Land Use and Land Cover Map of 2011 | 70-71 |
| 2.6.4 | Land Use and Land Cover Map of 2021 | 71-75 |
| 2.7 | Buffer-wise Analysis of Land Use and Land Cover | 75-85 |
| 2.7.1 | Core Zone | 75-76 |
| 2.7.2 | Buffer Zone I | 80 |
| 2.7.3 | Buffer Zone II | 80-81 |
| 2.7.4 | Buffer Zone III | 81-85 |
| 2.8 | Transfer Analysis of Land Use and Land Cover Classes | 86-89 |
| 2.9 | Summary | 89-90 |
| | References | 90-91 |
| Chapter 3: Analysis of Urban Growth | | 92-141 |
| 3.1 | Introduction | 93-95 |
| 3.2 | Built-up Area for Identifying Urban Growth and Development | 95 |
| 3.3 | Methodology for Urban Growth | 95-100 |

| | | |
|-------|--|----------------|
| | Analysis | |
| 3.3.1 | Data Requirement | 95-96 |
| 3.3.2 | Pre-processing of satellite images | 96 |
| 3.3.3 | Extracting Built-up Features | 97 |
| 3.3.4 | Post Editing of Classified Images | 97 |
| 3.3.5 | Shannon's Entropy Approach | 97-99 |
| 3.3.6 | Urban Growth Trends | 99 |
| 3.3.7 | Identifying Urban Expansion | 99-100 |
| 3.4 | Measuring Urban Growth Pattern of Siliguri Planning Area | 100-118 |
| 3.4.1 | Measuring Urban Growth at Direction-wise | 102-111 |
| 3.4.2 | Measuring Urban Growth at Concentric Circle-wise | 111-118 |
| 3.5 | Trend Analysis of Urban Growth | 118-129 |
| 3.5.1 | Quadrant-wise Built-up Density Analysis | 118-123 |
| 3.5.2 | Concentric Circle-wise Built-up Density Analysis | 123-129 |
| 3.6 | Urban Expansion Analysis | 129-134 |
| 3.7 | Hypothesis Testing | 134-136 |
| | References | 136-141 |
| | Chapter 4: Identification of Suitable Areas for New Built-up Area | 142-179 |
| 4.1 | Introduction | 143 |
| 4.2 | Different Methods for Calculating Weights | 143-145 |
| 4.3 | Related Literatures of This Work | 146 |
| 4.4 | Methodology | 146-151 |
| 4.4.1 | Selection of criteria | 146-148 |
| 4.4.2 | Calculating weightage by AHP | 148-151 |
| 4.4.3 | Preparing criteria maps | 151 |
| 4.4.4 | Rasterization of criteria maps | 151 |
| 4.4.5 | Integration of criteria maps and final | 151 |

| | | |
|---|--|----------------|
| | suitability map | |
| 4.5 | Accessibility factor | 151-152 |
| 4.6 | Environmental factors | 152-153 |
| 4.7 | Physical factors | 153 |
| 4.8 | Socio-economic factors | 153-154 |
| 4.9 | Pair wise comparison matrix and normalized pair wise comparison matrix | 163-165 |
| 4.10 | Calculation of the consistency ratio | 165-168 |
| 4.11 | Analysing final suitability map | 168-172 |
| 4.12 | Hypothesis testing | 172-174 |
| 4.13 | Summary | 174-175 |
| | References | 175-179 |
| Chapter 5: Analysis of Infrastructural Development | | 180-191 |
| 5.1 | Introduction | 181-182 |
| 5.2 | Relation between Infrastructural Development and Urban Growth | 182-183 |
| 5.3 | Methodology | 183-185 |
| 5.3.1 | Selection of Parameters | 184 |
| 5.3.2 | Data Acquisition | 184 |
| 5.3.3 | Borda Rule to Rank Spatial Units | 184-185 |
| 5.3.4 | Mapping the Study Area According to Final Rank | 185 |
| 5.4 | Analysing Final Results | 185-188 |
| 5.5 | Hypothesis Testing | 189-190 |
| | References | 190-191 |
| Chapter 6: Impacts of Urban Growth on the Study Area | | 192-235 |
| 6.1 | Introduction | 193-194 |
| 6.2 | Impact of Urban Growth on the Environment | 194-199 |
| 6.2.1 | Shortages of Energy Sources | 195-196 |
| 6.2.2 | Inequality in Wealth Distribution | 196 |
| 6.2.3 | Impacts on the Ecosystem | 196-197 |

| | | |
|-----------|--|---------|
| 6.2.4 | Pressure on Agricultural Land | 197 |
| 6.2.5 | Temperature Increase | 197-198 |
| 6.2.6 | Decrease Air Quality | 198 |
| 6.2.7 | Lowering Water Quality and Quantity | 198-199 |
| 6.3 | Major Impacts of Urban Growth on Siliguri Planning Area | 199-230 |
| 6.3.1 | Impact of Urban Growth on River Water | 199-218 |
| 6.3.1.1 | Methodology for River Water Quality Index | 200-205 |
| 6.3.1.1.1 | Selecting Sampling Stations | 200-202 |
| 6.3.1.1.2 | Methods of Data Collection and Parameters | 202 |
| 6.3.1.1.3 | Water Quality Index Calculation | 203-204 |
| 6.3.1.1.4 | Upper-Urban-Downstream Gradient Approach | 204-205 |
| 6.3.1.2 | Analyzing Final Result | 205-217 |
| 6.3.1.2.1 | Analysis of River Water by WQI of Two Seasons | 205-210 |
| 6.3.1.2.2 | Relation between Water Parameters | 210-214 |
| 6.3.1.2.3 | Upstream-Urban-Downstream Gradient Approach to Monitor River Water | 215-217 |
| 6.3.2 | Impact of Urban Growth on Land Surface Temperature | 217-223 |
| 6.3.2.1 | Methodology for Mapping Land Surface Temperature in Siliguri Planning Area | 218-221 |
| 6.3.2.1.1 | Data Acquisition | 218-219 |
| 6.3.2.1.2 | Conversion to TOA Radiance | 219-220 |
| 6.3.2.1.3 | Conversion to Spectral Radiance to At-Satellite Brightness Temperatures | 220 |
| 6.3.2.1.4 | Calculation of Proportion of | 220 |

| | | | |
|---|-----------|--|----------------|
| | | Vegetation or Pv | |
| | 6.3.2.1.5 | Calculation of Land Surface Emissivity or 'e' | 220 |
| | 6.3.2.1.6 | Land Surface Temperature or LST Calculation | 220 |
| | 6.3.2.1.7 | Conversion of LST Data to Centigrade Scale | 220-221 |
| | 6.3.2.2 | Analyzing the Final Result of LST | 221-223 |
| 6.3.3 | | Impact of Urban Growth on Vegetation | 223-229 |
| | 6.3.3.1 | Methodology for Mapping Urban Green Vegetation Cover | 224-225 |
| | 6.3.3.2 | Analysing Final Results | 225-229 |
| 6.4 | | Summary | 229 |
| | | References | 229-234 |
| Chapter 7: Suggestions and Conclusions | | | 235-243 |
| 7.1 | | Introduction | 236 |
| 7.2 | | Key Findings | 236-239 |
| | 7.2.1 | Land Use and Land Cover Analysis | 236-237 |
| | 7.2.2 | Urban Growth | 237 |
| | 7.2.3 | Suitable Built-up Area Demarcation | 237-238 |
| | 7.2.4 | Infrastructural Development | 238 |
| | 7.2.5 | Impacts of Urban Growth | 238-239 |
| 7.3 | | Overall Suggestions | 239-242 |
| 7.4 | | Conclusion | 242-243 |
| Bibliography | | | 244-262 |
| Appendices | | | 263-282 |
| | | Appendix A | 263-275 |
| | | Appendix B | 276 |
| | | Appendix C | 277 |

| | |
|------------|---------|
| Appendix D | 278 |
| Appendix E | 279 |
| Appendix F | 280-282 |
