

ACKNOWLEDGEMENT

In this thesis I have presented the results of the research work carried out by me at the Department of Chemistry, North Bengal University, Dt. Darjeeling, West Bengal.

I would like to take this opportunity to record my most sincere gratitude and gratefulness to Shri B. Majee, M.Sc., Reader in Chemistry, North Bengal University, for his most sympathetic attitude, valuable suggestions and far-sighted guidance without which the progress of this research work would not have been a success.

I am grateful to the authorities of the University of North Bengal, in particular to the Head of the Department of Chemistry for providing me Laboratory facilities.

I am greatly indebted to the University Grants Commission, New Delhi, for awarding me the Teacher Fellowship under the FIP scheme. I am also grateful to the authorities of Raiganj University College, Raiganj, West Dinajpur, for granting me the leave for the tenure of fellowship.

(II)

Finally, I would like to express thanks to the members of my family, in particular to my father and wife for their encouragement and sacrifice.

Department of Chemistry,
North Bengal University,
Dist. Darjeeling
West Bengal (INDIA)

FEBRUARY, 1981.
