

PREFACE

At the very outset, I express my profound sense of gratitude and indebtedness to my supervisor Professor Bishwanath Chakraborty and Co-supervisor Professor Usha Chakraborty, Department of Botany, University of North Bengal for their constant guidance throughout my research work. Without their encouragement and tireless mentorship, I would not have completed my thesis. I would also like to thank to the Head, Department of Botany, for all administrative support during the whole time of the course. I would also like to acknowledge support of Professor Abhaya Prasad Das, Professor Prabir Kumar Sarkar, Prof. Aniruddha Saha, Prof. Arnab Sen, Dr. Palash Mandal Dr. Subhash Chandra Roy and Dr. Manoranjan Chowdhury, Department of Botany, NBU. I trust all my teachers would accept my respectful offer of gratitude. I also wish to extend my thanks to all the office staffs and Laboratory assistants of the Department.

I am also indebted to the Professor Somnath Ghosh, Honorable Vice Chancellor, University of North Bengal for letting me to carry out my work in this University. My sincere thanks are also goes to The Registrar, NBU for his positive response during my registration and submission of Ph.D. Thesis.

I sincerely thank Department of Biotechnology (DBT), Ministry of Science and Technology, Govt. of India and University Grant Commission, Govt. of India, for their financial support.

During the years of my research work, I had to take help from various other esteemed institutions of India namely, Directorate of Mushroom Research, ICAR Solan, Himachal Pradesh for providing the fungal cultures and training on mushroom cultivation, Credora Life Sciences, Kerala for fungal identifications; Advanced Instrumentation Research Facility, JNU, New Delhi for GC-MS analysis. I am indebted to all concerned in these laboratories for their help. I would also like to pay my sincere thanks to M/s Drugs and Chemicals, M/s SRN Scientific, M/s MJ Enterprises for providing me the required chemicals and Bio-Net for supplying me the albino rats for conducting the experiments.

I would also like owe special thanks to the mushroom growers for allowing me to their respective mushroom farms.

I want to express my warm personal gratitude to all my friends of the Immuno-Phytopathology Laboratory especially Dr. Pannalal Dey, Dr. Kiran Sunar, Dr. Arka Pratim Chakraborty, Dr. Utanka Kumar De, Dr. Sanjita Allay, Dr. Somnath Roy, Dr. Amrita Acharya, Ms. Sweata Khati, Ms. Priyanka Bhattacharjee, Jayanwita Sarkar and the other research scholars of Plant Biochemistry laboratory such as Dr. Nishika Jaishee, and others for all their ideas that we argued about and constant support and assistance in completion of this thesis. Thanks indeed. I wish to thank the field assistants especially Mr. Sambhu Banik, Mr. Nimai Roy and Ms. Doly Mahato for their effortless help in field work.

Finally, I would like to thank my parents and other family members for their constant support and effortless care without which it will not be possible for me to complete my work.
