

C O N T E N T S

	<u>Page</u>
<u>CHAPTER - I</u>	
INTRODUCTION:	
REVIEW OF THE PREVIOUS WORK	
(A) Optical Properties of Arc Plasma.....	1
(B) Electrical Properties of Arc Plasma...	37
Scope and Object of the Present Work.....	84
BIBLIOGRAPHY... ..	93
<u>CHAPTER - II</u>	
THE EXPERIMENTAL SET-UP... ..	107
<u>CHAPTER - III</u>	
DEPENDENCE OF THE INTENSITY OF MERCURY TRIPLET LINES ON DISCHARGE CURRENT AND TRANSVERSE MAGNETIC FIELD IN AN ARC PLASMA... ..	130
<u>CHAPTER - IV</u>	
PERSISTENCE OF AFTERGLOW MAINTAINED BY A RADIOFREQUENCY FIELD IN A MERCURY ARC... ..	147
<u>CHAPTER - V</u>	
VOLTAGE CURRENT AND POWER RELATION IN AN ARC PLASMA IN A VARIABLE AXIAL MAGNETIC FIELD... ..	169

CHAPTER - VI

VOLTAGE CURRENT CHARACTERISTICS OF LOW CURRENT ARCS IN AIR WITH METAL ELECTRODES...	185
---	-----	-----	-----

CHAPTER - VII

CONDUCTIVITY AND POWER RELATION IN AN ARC PLASMA IN A TRANSVERSE MAGNETIC FIELD...	199
--	-----	-----	-----

CHAPTER - VIII

MEASUREMENT OF PLASMA PARAMETERS IN AN ARC PLASMA BY PROBE METHOD...	209
---	-----	-----	-----

CHAPTER - IX

DIPENDENCE OF RADIAL DISTRIBUTION FUNCTION FOR THE AZIMUTHAL CONDUCTIVITY OF ARC PLASMA ON TUBE RADII...	225
SUMMARY AND CONCLUSION...	247
