

TABLE OF CONTENTS

TOPIC	PAGE NO.
Declaration	iii
Certificate	iv-v
Anti plagiarism Report	vi
Acknowledgement	vii-viii
Preface	ix
Abstract	x-xvii
List of Tables	xxi-xxiv
List of Figures	xxv-xxx
List of Schemes	xxxi
Appendix A: List of Publications	xxxiii-xxxiv
Appendix B: List of Seminars/Symposiums/Conferences Attended	xxxv

CHAPTER I	1-11
Necessity of the Research Work	

- I.1. Objective, Scope, and Applications
- I.2. Compilation of Biologically Active Molecules, Ionic Liquids, Salts, and Solvents Employed in the Research Work

CHAPTER II	12-48
Review of the Earlier Works and Theory of Investigation	

- I.3. Techniques of Investigation
- II.1. Review of the Earlier Work
- II.2. Theory of Investigations

CHAPTER III**49-75****Experimental Section**

III.1. Exploration of Chemicals: Comprehensive Insight into Name, Structure, Physical and Chemical Properties, Purification, and Applications in Research Work

III.2. Experimental Methods

III.3. Details of the Instrument Involved in this Research Work

CHAPTER IV**76-110****Physicochemical and Computational Investigations of some Food Chemicals Prevalent in Aqueous 1-butyl-1-methyl-pyrrolidinium chloride Solutions with the Manifestation of Solvation Consequences**

IV.1. Introduction

IV.2. Experimental Method

IV.3. Results and Discussions

IV.4. Conclusions

Tables

Figures

*Published in *Molecular Liquids* (2022) 353:18800

CHAPTER V**111-129****Probing the Assembly of Nicotinuric Acid with Alpha and Beta Cyclodextrin Molecules by Physicochemical Investigation and Computational Approach**

V.1. Introduction

V.2. Experimental Method

V.3. Results and Discussions

V.4. Conclusions

Tables

Figures

*Published in *Chemical, Biological and Physical Sciences*(2023) 13:4

CHAPTER VI **130-166**

Exploring Various Interactions of Vitamin C and Vitamin B Compounds Prevailing in Aqueous Mixtures of a Nerve Stimulating Drug Molecule at Different Temperatures by Experimental and Computational Studies

VI.1. Introduction

VI.2. Experimental Method

VI.3. Results and Discussions

VI.4. Conclusions

Tables

Figures

****Published in *IJACS* (2024) 12:1**

CHAPTER VII **167-189**

Exploring Inclusion Complexes of an Anticancer Drug (Esculetin) with Cyclic Oligosaccharides for Innovative Applications by Experimental and Computational Methodologies

VII.1. Introduction

VII.2. Experimental Method

VII.3. Results and Discussions

VII.4. Conclusions

Tables

Figures

***Communicated**

CHAPTER VIII **190-192**

Concluding Remarks

BIBLIOGRAPHY **193-212**

INDEX

REPRINT OF PUBLISHED PAPERS
