

LIST OF TABLES

	Page
1.1 World Economic Growth Rates (in percent)	4
1.2 Average Annual Growth Rate of GDP and Population (1985/86-1996/97)	6
1.3 Percentage Ratio of Gross Domestic Savings and Investment to GDP	7
1.4 Average Consumer Price Index and Inflation (1991-2002)	7
1.5 Average Annual Growth Rate of Money Stock and Their Ratio to GDP	8
3.1 Database for GDP (Y_t) & Money Supply ($M1$ & $M2$)	47
4.1 Estimations of ADF Unit Root Test Equation on Variables	50
4.2 Augmented Dickey Fuller Unit Root Test on Variables	51
4.3 Dickey-Fuller-GLS Unit Root Test on Variables (Exogenous: Constant)	53
4.4 DF-GLS Unit Root Test on Variables (Exogenous: Constant, Linear Trend)	54
4.5 Phillips-Perron Unit Root Test on Variables	55
4.6 KPSS Unit Root Test on Variables	56
4.7 ERS Point-Optimal Unit Roots Test on Variables	57
4.8 Ng-Perron Modified Unit Root Test on Variables	58
5.1 Augmented Dickey-Fuller Unit Root Test on Residuals	75
5.2 Phillips-Perron Unit Root Test on Residuals	76
5.3 Durbin-Watson test for Cointegrating Regression (CRDW)	77
5.4 Johansen Cointegration Test	78
5.5 Vector Error Correction Estimates ($\ln Y_t$ & $\ln M1_t$)	80
5.6 Vector Error Correction Estimates ($\ln Y_t$ & $\ln M2_t$)	81
5.7 Vector Error Correction Estimates ($\ln NY_t$ & $\ln M1_t$)	82
5.8 Vector Error Correction Estimates ($\ln NY_t$ & $\ln M2_t$)	82
5.9 Unrestricted Vector Auto regression Estimates of the Series	85
5.10 Estimations of Conventional Granger Causality Tests	87
6.1 Estimation of ARIMA Models for $M1$	92
6.2 Estimation of Alternative ARIMA Models for $M1$	83
6.3 Estimation of ARIMA Model for $M2$	93
6.4 Estimation of Alternative ARIMA Models for $M1$	94
6.5 Actual, Anticipated and Unanticipated Parts of Money Supply ($M1$ and $M2$)	95
6.6 Estimation of the Model for 'Invariance Proposition' (for $M1$)	98

6.7	Estimation of the Model for 'Invariance Proposition' (for M2)	99
6.8	Estimation of 'Invariance Proposition' (for M2)-Restricted Equations	100
7.1	Chow Breakpoint Test on Equation ($\Delta \ln Y_t = \gamma_1 + \gamma_2 \Delta \ln M1_t + z_t$)	109
7.2	Chow Breakpoint Test on Equation ($\Delta \ln Y_t = \gamma_1 + \gamma_2 \Delta \ln M2_t + z_t$)	110
7.3	Estimation of ARIMA (1, 1, 1) Model for M1 (1959-1973)	112
7.4	Actual, Anticipated and Unanticipated Parts of M1 (1959-1973)	112
7.5	Output – Money supply (M1) relationship for the first sub-period	113
7.6	Estimation of ARIMA (2, 1, 2) Model for M1 (1974-1983)	115
7.7	Actual, Anticipated and Unanticipated Parts of M1 (1974-1983)	116
7.8	Output – Money supply (M1) relationship for the second sub-period	117
7.9	Estimation of ARIMA (2, 1, 2) Model for M1 (1984-2003)	119
7.10	Actual, Anticipated and Unanticipated Parts of M1 (1984-2003)	120
7.11	Output – Money supply (M1) relationship for the third sub-period	121
7.12	Estimation of ARIMA (2, 1, 2) Model for M2 (1959-1973)	123
7.13	Actual, Anticipated and Unanticipated Parts of M2 (1959-1973)	124
7.14	Output – Money supply (M2) relationship for the first sub-period (first lag)	125
7.15	Output – Money supply (M2) relationship for the first sub-period (no lag)	127
7.16	Estimation of ARIMA (2, 1, 2) Model for M2 (1974-1983)	130
7.17	Actual, Anticipated and Unanticipated Parts of M2 (1974-1983)	131
7.18	Output – Money supply (M2) relationship for the second sub-period	131
7.19	Estimation of ARIMA (2, 1, 2) Model for M2 (1984-2003)	133
7.20	Actual, Anticipated and Unanticipated Parts of M2 (1984-2003)	134
7.21	Output – Money supply (M2) relationship for the third sub-period	135
