<i>Chapters (Particulars)</i>	<i>Pages</i>
<b>Preface</b>	<i>I-IV</i>
<b>List of tables and appendices</b>	<i>V-IX</i>
<b>List of figures and photoplates</b>	<i>X-XI</i>
<b>CHAPTER I</b>	
<b>Introduction and review of literature</b>	1-14
1.1 Conservation areas of India vis-a-vis Himalaya	5
1.2 Review of literature	6
<b>CHAPTER II</b>	
<b>The study area, objectives, soil and climate</b>	
2.1 The Sikkim Himalaya	15
2.2 The Khangchendzonga Biosphere Reserve	17
2.2.1 Sikkim Biodiversity and Ecotourism Project	18
2.2.2 Yuksam-Dzongri trekking corridor	19
2.3 Hypothesis	21
2.4 Objectives	22
2.5 Experimental enclosure plots	22
2.6 Soil properties	
2.6.1 Physical	23
2.6.2 Chemical	24
2.7 Climate	
2.7.1 Temperature	25
2.7.2 Rainfall	26
2.7.3 Climatic data of temperate zone	27
<b>CHAPTER III</b>	
<b>Animal-rangeland linkages and vegetation characteristics</b>	
3.1 Introduction	36
3.2 Livestock grazing and linkage	
3.2.1 Livestock number and rearing pattern	37
3.2.2 Agricultural practices and animal husbandry	39
3.2.3 Tourism and livestock	39
3.3 Vegetation characteristics	
3.3.1 Vegetation pattern	41
3.3.2 Floristic composition	43
3.3.3 Phenology	44
3.3.4 Life and growth forms	45
3.3.5 Ethnobotanical plant wealth	47

## **CHAPTER IV**

### **Forage resources and livestock foraging behaviour**

4.1 Introduction	65
4.2 Methods	67
4.3 Results	
4.3.1 Fodder from the forest and agriculture land	73
4.3.2 Forage from subalpine and alpine pastures	75
4.3.3 Animal foraging behaviour	75
4.3.4 Nutritive values of fodder species	
4.3.4.1 Cellulose, hemicellulose, crude fibre & lignin content	76
4.3.4.2 Nitrogen, phosphorus & crude protein concentration	78
4.4 Discussion	78

## **CHAPTER V**

### **Impact of grazing on vegetation structure, species richness, diversity and distribution**

5.1 Introduction	93
5.2 Methods	95
5.3 Results	
5.3.1 Plant community structure	98
5.3.2 Vegetation structure	100
5.3.3 Species richness, diversity and distribution	105
5.3.4 Tree seedling and sapling enumeration	108
5.4 Discussion	109

## **CHAPTER VI**

### **Impact of grazing on plant biomass and productivity**

6.1 Introduction	135
6.2 Methods	136
6.3 Results	
6.3.1 Aboveground standing biomass	138
6.3.2 Litter mass	141
6.3.3 Belowground biomass	141
6.3.4 Root:Shoot ratio	141
6.3.5 Net primary productivity	142
6.3.6 Turnover rate	143
6.4 Discussion	144

## **CHAPTER VII**

### **Nutrient cycling and influence by grazing**

7.1 Introduction	162
7.2 Methods	164
7.3 Results	
7.3.1 Plant nutrient concentration	167
7.3.2 Standing state of nutrients of plants	170
7.3.3 Nutrient status of soil	173
7.3.4 Chemical composition of faecal matters	175
7.3.5 Nutrient cycling	176
7.4 Discussion	178

## **CHAPTER VIII**

### **Stocking rate, carrying capacity and livestock management**

8.1 Introduction	200
8.2 Methods	201
8.3 Results	
8.3.1 Present stocking rate	202
8.3.2 Grazing carrying capacity	203
8.4 Discussion	204

## **CHAPTER IX**

<b>General discussion and recommendations</b>	210
<b>Summary</b>	221
<b>References</b>	230
<b>Appendices</b>	XII
<b>Photoplates</b>	-

---
