

# Contents

1. Introduction .....	1-5
2. Review of Literature .....	6-41
3. Materials and Methods .....	42-63
3.1. Plant Material	
3.1.1. Source of Seed	
3.1.2. Growth of Plants	
3.2. Fungal Cultures	
3.2.1. Sources of Culture	
3.2.2. Completion of Koch's Postulate	
3.2.3. Maintenance of Stock Cultures	
3.3. Preparation of inoculum and inoculation techniques	
3.3.1. Single Grain Insertion	
3.3.2. Single Sclerotia Insertion	
3.3.3. Injection of Mycelial Suspension	
3.3.4. Spraying of Mycelial Suspension	
3.3.5. Preparation of Sick Plot	
3.4. Test Compounds	
3.4.1. Chemicals	
3.4.1.1. Metal salts	
3.4.1.2. Fungicide	
3.4.1.3. Chitosan	
3.4.1.4. Plant Extracts	
3.4.1.5. Biocontrol Agents	
3.4.1.6. Plant Oils	
3.5. Process of Treatment	
3.5.1. Chemicals	
3.5.2. Plant Extracts	
3.5.3. Biocontrol Agents	
3.5.4. Plant Oils	
3.6. Disease Assessment	
3.7. Fungitoxicity Assay	
3.8. Collection of Leaf Diffusate and Bioassay	
3.9. Survival of Pathogen in Organic Amendments	
3.10. Extraction of Enzymes	
3.10.1. Peroxidase	
3.10.2. Polyphenol Oxidase	
3.10.3. Phenylalanine Ammonia Lyase	
3.10.4. Chitinase	
3.10.5. Glucanase	
3.11. Assay of Enzyme Activity	
3.11.1. Peroxidase	
3.11.2. Polyphenol Oxidase	
3.11.3. Phenylalanine Ammonia Lyase	
3.11.4. Chitinase	

3.11.5. Glucanase	
3.12. Total Phenol	
3.12.1. Extraction	
3.12.2. Estimation	
3.13. Ortho-dihydroxy Phenol	
3.13.1. Extraction	
3.13.2. Estimation	
3.14. Soluble Protein	
3.14.1. Extraction	
3.14.2. Estimation	
3.15. Lignin	
3.15.1. Extraction	
3.15.2. Estimation	
3.16. Rice Phytoalexin	
3.16.1. Extraction	
3.16.2. Bioassay of Antifungal Activity	
3.16.3. Chromatographic analysis	
3.16.4. UV-Spectrophotometric analysis	
3.16.5. HPLC of the Compound	
3.17. Polyacralaymyde Gel Electrophoresis of Protein	
3.17.1. Stock Solution	
3.17.2. Preparation of Slab Gel	
3.17.3. Sample Preparation	
3.17.4. Electrophoresis	
3.17.5. Fixing and Staining	
4. Experimental .....	64-115
4.1. Relative efficacy of different inoculation technique for Rice Sheath Blight Pathogen ( <i>R. solani</i> )	
4.2. Screening of rice cultivars for their response to Sheath Blight Infection.	
4.3. Biochemical changes during disease development in rice plant following <i>R. solani</i> infection.	
4.4. Fungitoxicity assay of test chemicals	
4.5. Effect of plant oils on <i>R. solani</i>	
4.6. Effect of organic amendments on growth of <i>R. solani</i>	
4.7. Biocontrol strategies of sheath blight disease	
4.8. Integrated disease management in rice	
4.9. Biochemical changes associated with induction of resistance in rice plants against <i>R. solani</i>	
4.10. Effect of seed treatment on lignification in rice plant	
4.11. Analysis of defense related enzymes and phytoalexins associated with acquired resistance in rice plants	
5. Discussion .....	116-124
6. Summary .....	125-127
7. References .....	128-146
