

ACKNOWLEDGEMENT

The author wishes to express his deep gratitude to Dr. P.S.Roy, Reader in Chemistry, University of North Bengal for his constant advice and guidance throughout the research period. He is very much indebted to Dr. Roy for the preparation of this manuscript. He is also grateful to Dr. (Mrs.) R.Roy for her assistance and co-operation throughout this investigation.

The author would like to express his sincere gratitude to the Head of the Department of Chemistry, University of the North Bengal for extending all facilities required for this work. The author is also grateful to all the teachers of this department for their encouragement and unfailing interest in this work. Throughout the period of this research work the author has received ungrudging assistance from the officers and staff of this department. He also takes this opportunity to acknowledge the help of all his colleagues.

The author is thankful to R.S.I.C., Lucknow, R.S.I.C., Bombay, R.S.I.C., Madras, R.S.I.C., Chandigarh, R.S.I.C., Shillong and T.I.F.R., Bombay for different instrumental measurements like elemental analyses, ^1H NMR, IR, low frequency IR, CD and atomic absorption spectra. Author has also received help from Shri A. Mukherjee, M.Sc., Geology department, Presidency College for alkali metal analyses of some of his samples using atomic absorption spectrophotometry. Computational help has been received from the Research Service Centre, University of North Bengal. He

is under obligation to the Librarian, I.A.C.S., Calcutta and the Director, INSDOC, New Delhi, for their kind help in literature survey.

The author finds no appropriate word to place on record his gratitude to his beloved parents, other members of his family and friends, who have constantly stimulated his interest in research studies . His great appreciation of the assistance, both direct and indirect, given him by Smt. Leena Majumdar, is also acknowledged.

The financial assistance received in the form of a fellowship from C.S.I.R., New Delhi, during the tenure of which this work has been completed is gratefully acknowledged.
