List of Figures		xvi
List of Plates		xix
Glossary		xx
Introduction		1
Chapter I	GENERAL BACKGROUND OF THE AREA	5
	Introduction	
	1.1 Relief	
	1.2 Geology	
	1.3 Drainage	
	1.4 Climate	
	1.5 Soils	
	1.6 Vegetation	
	Conclusion	
Chapter II	SOILS AND THEIR CHARACTERISTICS	35
	Introduction	
	2.1 Soil Types and Their Distribution	
	2.2 Soil Formation	
	2.3 Soil Organisms	
	2.4 Soil Texture	
	2.5 Soil Structure	
	2.6 Soil Profile	
	2.7 Soil Fertility	
	2.8 Soil pH and CEC	
	2.9 Soil Infiltration Capacity	
	2.10 Soil Water Holding Capacity	
	2.11 Soil Organic Matter	
	Conclusion	

Chapter III MORPHOMETRIC ANALYSIS OF RELIEF AND DRAINAGE AND THEIR RELATIONSHIPS WITH SOIL EROSION

69

Introduction

- 3.1 Drainage Long Profile
- 3.2 Drainage Density
- 3.3 Drainage Order
- 3.4 Drainage Frequency
- 3.5 Bifurcation Ratio
- 3.6 Stream Length Ratio
- 3.7 Sinuosity
- 3.8 Cross and Composite Profile
- 3.9 Hypsometric Curve
- 3.10 Relative Relief
- 3.11 Slope and Its Distribution
- 3.12 Ruggedness
- 3.13 Sediment Load, Discharge and Velocity of Jhora Flows

Conclusion

Chapter IV SOIL EROSION MECHANISMS AND PROCESSES

121

Introduction

- 4.1 Splash Erosion
- 4.2 Sheet Erosion
- 4.3 Rill Erosion
- 4.4 Gully Erosion
- 4.5 Stream Bank Erosion
- 4.6 Pothole Erosion
- 4.7 Sloughing Erosion
- 4.8 Landslides

Conclusion

Chapter V PROBLEMS RELATED TO SOIL EROSION AND THEIR EFFECTS

146

Introduction

- 5.1 Problems
- 5.2 Effects of Soil Erosion

Conclusion

Chapter VI	METHODOLOGY	172
	Introduction	
	6.1 Analysis of Morphometric Characteristics	
	6.2 Measurement of River Flows	
	6.3 Measurement of Sediment Load in Rivers	
	6.4 Measurements of Various Soil Characteristics	
	Conclusion	
Chapter VII	EARLIER STRATEGIES IN CONSERVATION OF SOIL AND WATER	179
	Introduction	
	7.1 Government Measures for Soil and Water Conservation	
	7.2 Soil Conservation By Individuals	
	7.3 Different Schemes of Soil and Water Conservation	
	Conclusion	
Chapter VIII	SUGGESTIONS REGARDING SOIL AND WATER CONSERVATION	209
	Introduction	
	8.1 Jhora Training	
	8.2 Catchwater Drains	
	8.3 Retaining Walls and Breast Walls	
	8.4 Protection of Banks of Torrents and Streams	
	8.5 Checkdams	
	8.6 Palisades and Wattlings	
	8.7 Other Slope Stabilisation Techniques with Live and Dead Plant Materials	
	8.8 Control Measured for Landslides	
	8.9 Cultivation Practices	
	8.10 Afforestation	

- 8.11 Overgrazing
- 8.12 Water Supply
- 8.13 Forest Fires
- 8.14 Oversettlements
- 8.15 Unauthorised Quarrying

Conclusion
