

Acknowledgements

To begin with, I must pay my deepest and heartiest sense of gratitude to my supervisor Professor P.K. Basu, Department of Botany, University of North Bengal and my co-supervisor Professor P.K. Sircar, Department of Botany, University of Calcutta for their inspiration, encouraging guidance, continuous support and valuable advice at all the time of my research work. They taught me how to express my ideas, showed me different ways to approach a research problem and the need to be persistent for accomplishing any goal.

I feel greatly indebted to Dr. Amitabha Ghosh; Former Research Associate of DST sponsored Project, GOI at Department of Botany, University of Calcutta (presently Assistant Professor of Department of Botany, Asutosh College, Kolkata 700 026) who put forwarded valuable suggestions and contributed directly by designing the methodology of research during my Ph.D. programme.

I would like to extend my special gratitude to Prof. Samir Kumar Das, Honourable Vice-Chancellor, North Bengal University for his valuable advice and encouragement throughout the course of this work. I am truly grateful to Dr. S.C. Roy, Head of the Department of Botany, North Bengal University for his continuous encouragement and motivation. I am also indebted to Prof. A.P. Das, Prof. B.N. Chakraborty, Prof. P.K. Sarkar, Prof. U. Chakraborty, Dr. A. Sen, Dr. A. Saha and Dr. M. Chowdhury of Department of Botany, North Bengal University, who put forwarded valuable suggestions whenever asked for.

I acknowledge with sincere thanks to all the other teachers of University of North Bengal for their constant encouragement and inspiration in this regard. I am also greatly indebted to my all teachers of University of Calcutta and University of Kalyani for their unconditional support and guidance during several critical moments of my research.

I would like to convey my sincere gratitude to Dr. I.D. Singh, ex-Director, Department of Plantation Management for his worthy comments during manuscript

preparation. I take this opportunity to thank Mr. Tarun Kumar Misra for his help in various aspects of this work. I am really very thankful to my present research scholar Ms. Mitali Ghosal for her contribution in formatting the manuscript. Also I am thankful to other research scholars of Department of Botany, North Bengal University.

I would be happy enough to encompass my present and past students of Department of Botany of North Bengal University in this circle. Their active participation in different programmes of my research facilitated my Ph.D related work.

I express my heartfelt gratitude and respect to my beloved parents Mr. Patit Paban Mandal and Mrs. Nilima Mandal. I am also grateful to my father-in-law Mr. Pranab Kumar Choudhuri and Mrs. Pola Choudhuri for their endless inspiration, encouragement and affection. Thanks are also due to my only sister Ranu Mandal and my brother-in-law, Mr. Chiranjib Choudhuri for their constant love and affection. Special thank is payable to my wife Mrs. Chandrani Mandal (Choudhuri) for her continuous support throughout the execution of the work. I am also thankful to my daughter Sneha Mandal, my son Rig Mandal and other family members.

I acknowledge with sincere thanks to Prof. Sudhir Sopory, International Centre for Genetic Engineering and Biotechnology, New Delhi 110 067 and Late Prof. S.P. Sen, Department of Botany, University of Kalyani, Kalyani 741 235 for their kind suggestions. I am grateful to Indian Institute of Chemical Biology, Calcutta 700 032 and Bose Institute, Calcutta 700 054 for sequencing and amino acid analysis of peptides and high voltage capillary electrophoresis, respectively. Last but not the least, I acknowledge with gratitude for the financial support from Department of Science and Technology, GOI (SP/SO/A-29/96) for materializing this work.
