

LIST OF TABLES

<u>Table No.</u>	<u>Title</u>	<u>Page</u>
I	Consumption of Pesticides (Tech. Grade) in India.	10
II	Consumption of Pesticides in India (1977-78)	11
III	Requirement of Pesticides for the year of the fifth five year plan and for 1983-84 as estimated by the pesticides association of India.	12
IV	Efficiency of different adsorbents for clean up or recovery of DDT, lindane and malathion in presence of pigments and fat using different adsorbents and eluting solvents.	13
V	Separating effect of column material.	34
VI	Separation of pesticides on various adsorbents.	39
VII	Stability of dimethoate in water	45
VIII	Changes during storage	46
IX	Rate of dissipation of pesticides in foods.	49
X	(%) Decay of pesticides in boiling water ...	51
XI	Decay of malathion on treated wheat flour under different conditions of storage.	53
XIA.	Persistence of phosalona in the treated dry fish.	56
XII	Effect of home-processing on pesticide residua.	56

<u>Table No.</u>	<u>Title</u>	<u>Page</u>
XIII	Loss of phosalone during washing and cooking.	67
XIV	Stability of pesticides in xylene solution ...	68
XV	Stability of pesticides in kerosene solution...	68
XVI	Formation of nitrosamines from different pesticides.	70
XVII	Interferences and effects of additions.	71
XVIII	Pesticides solutions treated with some inorganic salts.	87
XIX	Hydrolysed pesticides treated with some inorganic salts.	88
XX	Extractibility of phosalone from vegetables and cereals.	99
XXI	Chromogenic agents for visualisation of phosalone spot.	99
XXII	Selection of the extracting solvent.	106
XXIII	Selection of extracting solvent for residual dimethoate in foods.	112
XXIV	Pesticides subjected to cometabolism and accumulated products.	134
XXV	Action of phosalone on dry fish.	139
XXVI	Pesticides detected in different food stuffs..	151
XXVII	Residue levels of specific chemicals in specific food stuffs.	153
XXVIII	FAO/WHO recommendations concerning the tolerances.	155

(F)

<u>Table No.</u>	<u>Title</u>	<u>Page</u>
XXIX	Tolerance limits according to P.F.A. Rules, 1954, India (Ministry of Health and Family Planning).	158
XXX	Number of different food stuffs containing different pesticides exceeding the PFA limit.	163
XXXI	Pesticide detected in different seasons in food stuffs.	164
XXXII	Agewise distribution of pesticides detected in human tissues.	171
XXXIII	Agewise concentration of organochlorinated pesticides in adipose tissues.	173
XXXIV	Pesticides detected in different tissues ...	174
XXXV	Pesticide residues in human adipose tissues.	179
XXXVI	Average DDT and metabolite residues in adipose tissue of United States General population.	181.
