

C O N T E N T S.

	<u>Page</u>
Introduction	v
<u>Chapter - I</u>	
Review of the previous work	1
Scope and object of the present investigation	58
References	68
<u>Chapter - II</u>	
Experimental methods used in the present study	97
<u>Chapter - III</u>	
Plasma conductivity in a transverse magnetic field	122
<u>Chapter - IV</u>	
Momentum transfer collision cross section in magnetic field for slow electrons from r.f. conductivity measurements	142
<u>Chapter - V</u>	
Current voltage characteristics in glow discharge in longitudinal magnetic field	157

Chapter VI

Validity of diffusion theory in r.f. breakdown in molecular gas ^{es} in longi- tudinal magnetic field	181
--	-----

Chapter VII

Plasma diffusion in a magnetic field	203
--------------------------------------	-----

Chapter VIII

Variation of electron temperature and electron density in ionised gases in transverse and longitudinal magnetic field	225
Summary & Conclusion	243
