July-2010

It gives me immense pleasure to certify that Mr. Arijit Bhattacharjee, M.Sc. in Chemistry has carried out his research work embodied in the thesis entitled "Physico-Chemical Investigation on Molecular Interactions Occurring in Various Liquid Systems" based on his original work under my supervision and guidance. He is submitting his thesis for the award of Doctor of Philosophy (Science) degree in Chemistry according to the rules and regulations of the University of North Bengal.

I am much impressed for his keen interest and research aptitudes on such a applied and interesting field. In my opinion, he is fit and proper person for the degree of Doctor of Philosophy (Ph. D.) in Chemistry of the University of North Bengal.

Mr. Arijit Bhattacharjee obtained a good academic career with excellent scores and stood First Class First (GOLD MEDALLIST) in his class in the M.Sc. examination among the three branches (Organic, Inorganic and Physical) in Chemistry.

Needless to say, he is sober, honest, intelligent, alert, energetic, sincere and hard-working and I venture to say that he is sure to prove himself worthy if he is placed in a better position.

I wish him every success in life.

M. N. Roy
