

A C K N O W L E D G E M E N T

The present thesis embodies the results of research carried out by the author at the Department of Chemistry, University of North Bengal, Dist. Darjeeling.

The author takes this opportunity to record his grateful thanks to Dr. S.C.Ray, Professor and Head of the Department of Chemistry, University of North Bengal for his valuable guidance, suggestions and keen interest throughout the research period.

The author is indebted to Dr. U.R.Ghatak, Head of the Deptt. of Chemistry, Indian Association for the Cultivation of Science, Calcutta for kindly arranging most of the NMR spectra and some of the microanalysis recorded in the thesis.

The author is thankful to Dr. A.Bernhardt for carrying out some of the microanalysis, Bose Institute for carrying out mass spectra and some of the NMR spectra.

The author is also thankful to the University Grants Commission, New Delhi, the Departmental colleagues and authorities of Dinhat College, Cooch Behar for granting Teacher Fellowship.

Thanks are due to Dr. T.K.Sarkar, Lecturer, Siliguri College, Darjeeling for his valuable co-operation and inspiration, to Sri A.J.Majumdar, M.Sc., Dinhata College for his co-operation.

Thanks to Dr. S.Saha for IR spectra of the compounds recorded in the thesis.
