I. STATEMENT & OVERVIEW : IRRIGATION IN RURAL DEVELOPMENT

1.1	Introduction	1
1.2	Rural Transformation	2
1.3	The Problem	3
1.4	The Agrarian Question	4
1.5	Rural Development Alternatives	7
1.6	Transforming Traditional Agriculture	10
1.7	Irrigation Technology	13
1.8	Irrigation Systems	15
1.9	Irrigation Impact Studies	18
1.10	Extended Issues	20
1.11	Area Studies of Relevance	25
1.12	The Literature on Power	26

II. THE ELECTRICITY SECTOR : SPATIAL & TEMPORAL DEVELOPMENTS

2.1	Power : An Introduction	31
2.2	Organisation	32
2.3	Generation & Consumption	34
2.4	Critical Review	39
2.5	Transmission & Distribution	40
2.6	Rural Electrification	41
2.7	Grid Features	44
2.8	System & Organisation	48
2.9	The WBSEB	49
2.10	Generation & Demand	50
2.11	Regional Demand	53
2.12	Transmission & Distribution	57
2.13	Generation & Sale of Electricity in North Bengal	58
2.14	A Critical Appraisal	62

III. THE CASE-STUDY : BACKGROUND INFORMATION

Cooch Behar District

3.1	General Features	75
3.2	Population	77
3.3	Pedology & Climate	80
3.4	Land-Use Characteristics	82
3.5	Cropping	85
3.6	The Irrigation System	87
3.7	Groundwater	89
3.8	Minor Irrigation Schemes	93
3.10	Agriculture	96
3.11	Irrigation	98
3.12	Directions for Empirical Study	103

IV. THE SAMPLE STUDY : BROAD RESULTS

4.1	Introduction	105
4.2	The Field Survey	106
4.3	Computation	107
4.4	Findings	109
4.5	A Summary	114
4.6	Tentative Findings	115
4.7	Other Results	116
4.8	Conclusions	126

V. EXTENSIONS FROM THE SAMPLE-STUDY

5.1	The Labour Impact	127
5.2	Inter-Seasonal Variations	133
5.3	The Impact on Land	136
5.4	Technical Factors in Scheme Efficiency	139

VI. SUMMARY & CONCLUSIONS FROM THE STUDY

6.1	Introduction	144
6.2	Irrigation	145
6.3	Rural Development	147
6.4	Electricity	148
6.5	The National Scenario	148
6.6	The Regional Scenario	150
6.7	The State Scenario	151
6.8	Power in North Bengal	152
6.9	The Scenario in the Study-Region	153
6.10	The Case-Study	154
6.11	Major Findings	158
