

ACKNOWLEDGEMENTS

The work presented in this thesis was carried out under the supervision of Dr. Nirmalendu Chaudhuri, Professor of Physics, North Bengal University (NBU) in a group with Dr. G.C. Goswami, Mr. M.R. Ghoshdastidar, Mr. B. Ghosh, Dr. D.K. Basak, Mr. N. Mukherjee, Mr. M.K. Ghosh, Mr. S.K. Sarkar, Mr. M.K. Roy of the Cosmic Ray Laboratory, NBU.

The loan of equipment with grant from the Department of Atomic Energy (DAE), Government of India is gratefully acknowledged. A consignment of neon flash tubes from the University of Durham under the advice of Professor A.W. Wolfendale is thankfully acknowledged.

The financial assistance from the University of North Bengal in the form of a University fellowship during the period June 1981 - April 1983 is thankfully acknowledged. The co-operation of the authority of Darjeeling Govt. College in the period from May 1983 onward is thankfully appreciated.

The advice of Professor M.S. Sinha as a UGC visiting Professor to NBU in building up of two magnetic spectrographs is gratefully remembered. The suggestions of Professor O.C. Allkofer and Professor M. Samorski of the University of Kiel and of Professor G. Tanahashi of the Institute of Cosmic Ray Research, University of Tokyo in connection with the setting up of high voltage neon flash tube arrays is gratefully acknow-

ledged. The support from Dr. S.K. Sengupta, Senior Scientific Officer, Science and Instrumentation Centre (USIC), NBU, and the technical staff of the USIC and Department of Physics, NBU is thankfully acknowledged.

I take this opportunity to thank Dr. L. Ghatowar, Department of Geography and Applied Geography, NBU and Mr. A. Bose, Central Library, NBU for drawing the figures and typing the thesis respectively.
