

# C O N T E N T S

	Page
SUMMARY ..	(I)
CHAPTER I	
INTRODUCTION ..	1
CHAPTER II	
FEEDING BEHAVIOUR AND FOOD HABITS OF <u>H. FOSSILIS</u> (DL.) IN A POND	
Introduction ..	10
Materials and Methods ..	11
Results and discussion ..	13
CHAPTER III	
AGGRESSIVE BEHAVIOUR IN <u>H. FOSSILIS</u> (DL.) AND <u>G. BATRACHIUS</u> (LINN.)	
Introduction ..	20
Materials and Methods for <u>H. fossilis</u>	21
Procedure ..	22
Motor patterns	
a) Chasing ..	23
b) Tail beating ..	23
c) Biting ..	24
d) Resting in antiparallel orientation	26

	Page
e) Submissive posture ..	26
Results ..	28
Discussion ..	30
Materials and Methods for <u>C. batrachus</u>	41
Sequential appearance of aggressive motor patterns ..	42
Results ..	43
Discussions ..	45

#### CHAPTER IV

##### REPRODUCTIVE BEHAVIOUR

Introduction ..	55
Materials and Methods ..	57
Results ..	61
a) Pre-mating behaviour ..	61
b) Mating behaviour ..	64
c) Post-mating behaviour ..	69
d) Influence of climatic factors on induced breeding ..	70
Discussions ..	71

#### CHAPTER V

##### CULTURE AND HATCHLING BEHAVIOUR IN H. FOSSILIS

Introduction ..	77
-----------------	----

	Page
<b>A. Development and rearing of hatchlings</b>	
Materials and Methods .. ..	78
Results and Discussions .. ..	79
<b>B. Behaviour of the hatchlings</b>	
Materials and Methods .. ..	84
Results .. ..	85
Discussion .. ..	93
<b>C. Dead postures</b>	
Materials and Methods .. ..	97
Results and Discussion .. ..	97
<b>D. Length-weight relationship</b>	
Introduction .. ..	102
Materials and Methods .. ..	103
Results and Discussion .. ..	104
<b>E. Survivability in hatchlings</b>	
Introduction .. ..	108
Materials and Methods .. ..	109
Objectives .. ..	110
Results and Discussions .. ..	111

	Page
<b>F. Aggressive behaviour in hatchlings</b>	
Introduction .. .. .	115
Materials and Methods .. .. .	115
Results and Discussions .. .. .	116

## CHAPTER VI

### TERRITORIAL BEHAVIOUR

Introduction .. .. .	121
Materials and Methods .. .. .	122
a) For <u>H. fossilis</u> .. .. .	124
b) For <u>O. batrachus</u> .. .. .	125
REFERENCE .. .. .	140
