FOREWORD ..	
CHAPTER I : INTRODUCTION	1
Part 1 : General Discussion on Solvent Extraction	2-23
Part 2 : Absorptiometry and Spectrophotometry- Analytical Basis	24-31
Proposed Investigation	31-32
References	33-35
CHAPTER II:	
Phenyl ^{thio} hydantoic Acid as an Analytical Reagent	36
Extraction and Spectrophotometric Determination of cobalt with Phenylthio- hydantoic Acid.	37-52
Extraction and Spectrophotometric Determination of Palladium with Phenylthiohydantoic Acid	53-67
References	68-73
CHAPTER III:	
2-Hydroxy-1-Naphthaldoxime as an Analytical Reagent	
Extraction and Spectrophotometric Determination of Nickel with 2-Hydroxy-1-Naphthaldoxime	75-91

	Page No.
Extraction and Spectrophotometric Determination of Cobalt with 2-Hydroxy-1-Naphthaldoxime	92-103
Extraction and Spectrophotometric Determination of Palladium with 2-Hydroxy-1-Naphthaldoxime	104-115
References	116-119

CHAPTER IV

Cetyltrimethylammonium Bromide as an Analytical Reagent

Extraction and Spectrophotometric Determination of Bismuth with Cetyltrimethylammonium Bromide (CTAB)	121-143
Extraction and Spectrophotometric Determination of Copper with Cetyltrimethylammonium Bromide (CTAB)	144-160
References	161-167

CHAPTER V

Iodide, Bromide and Pyridine Bases as Analytical Reagents

Extraction Spectrophotometric Determination of Palladium using Mixed-Ligand Complex Formation with Pyridine/ α -Picoline/ β -Picoline/ γ -Picoline/2,4,6-Collidine and Iodide	169-185
Extraction and Spectrophotometric Determination of Platinum using Mixed-Ligand Complexes Formation with Pyridine, α -Picoline, β -Picoline, γ -Picoline or 2,4,6- Collidine and Iodide.	186-198

Solvent Extraction and Spectrophotometric Determination of Copper using Mixed Ligand Complex Formation with Pyridine, α -Picoline, β -Picoline, γ -Picoline or 2,4,6-Collidine and Bromide/Iodide	199-210
References	211-216

CHAPTER VI

2-Mercaptobenzoic Acid as an Analytical Reagent	
Spectrophotometric Determination of Palladium with 2-Mercaptobenzoic Acid.	218-230
References	231

CHAPTER VII

Cacotheline as an Analytical Reagent Spectrophotometric Determination of Iron using Cacotheline	233-246
References	247-250
List of Publications	251-252
