TO WHOM IT MAY CONCERN

This is to certify that the work embodied in this thesis entitled 'Study of ferroelectric and antiferroelectric phase transitions in some crystals' by Shri Dipak Kumar Nath, M.Sc. (1st Class), has been carried out by the candidate himself under my direct supervision and guidance. Mr. Nath has fulfilled all the conditions required for the Ph.D. degree examination of the University of North Bengal. Moreover, in the papers published jointly with other collaborators, the contribution of the candidate is really very substantial.

B.K. Chaudhuri
