CHAPTER ONE

INTRODUCTION

1.1	General Background of Nepalese Economy	24
1.2	Nepalese Macroeconomic Scenario	29
1.2.1	Performance of Nepalese Economy in Terms of Economic Growth	29
1.2.2	Performance of Nepalese Economy in Terms of Consumption, Saving and Capital Formation with Population	30
1.2.3	Inflation Scenario in Nepal	31
1.2.4	Scenario of Public Finance in Nepal	31
1.3	Monetary Background of Nepal with reference to Banking and Financial Institutions	32
1.4	Overview of Price and Inflationary Situation of Nepalese Economy	35
1.5	Statement of the Problem	36
1.6	Importance of the Study	40
1.7	Objectives of the Study	42
1.8	Hypothesis	42
1.9	Limitations of the Study	43
1.10	Scope for Future Research	43
1.11	Plan of the Study	44

CHAPTER TWO

LITERATURE REVIEW

2.1	Introduction	45
2.2	Conceptual Framework of Quantity Theory of Money	47
2.3	Quantity Theory of Money in the Early Twentieth Century	49

2.4	Keynesian Views on Money-Price Relationship	54
2.5	Monetarists' View on Money and Price	56
2.6	Structuralists' View Regarding Inflation	59
2.7	Rational expectation Hypothesis	60
2.8	Current Investigation of the Quantity Theory of Money	61
2.9	Empirical Exploration on Money-Price Relationship	63

CHAPTER THREE

RESEARCH METHODOLOGY

3.1	Nature and Source of Data	73
3.2	Variables and Measures	74
3.3	Techniques of Data Analysis	74
3.3.1	ADF Unit Root Test	75
3.3.2	Phillips-Perron Unit Root Test	77
3.3.3	Cointegration Test: The Johansen's Approach	78
3.3.4	Vector Error Correction (VEC) Models	80
3.3.5	Granger Causality Test	81
3.3.6	Distributed Lags Models	82

CHAPTER FOUR

MODELING OF FORECASTING INFLATION IN NEPAL

4.1	Introduction	83
4.2	ARMA/ARIMA Modeling for Forecasting	85
4.3	ARMA/ARIMA Structure: The Box-Jenkins Approach	86
4.4	Stability Test of ARIMA/ARIMA Modeling	87
4.4.1	Durbin-Watson Test	87
4.4.2	Residuals Diagnostic	88
4.4.2.1	Correlogram-Q-Statistics for Autocorrelation	88
4.4.2.2	Normality Test: Jarque-Bera Statistics	88
4.4.2.3	Lagrange Multiplier (LM) Test	89
4.5	ARCH and GARCH Estimation for Forecasting	91
4.5.1	Developing ARCH/GARCH Model	91
4.6	Stability of the ARCH/GARCH Model	92

4.6.1	Model Selection Criteria	93
4.6.1.1	The Akaike Information Criterion	93
4.6.1.2	The Schwartz Criterion	93
4.6.2	Lagrange Multiplier Test for ARCH Effects	94
4.7	Graphical Plot of $LnCPI$ and $dLnCPI$	94
4.8	Modeling of ARMA	96
4.8.1	Residuals Diagnostic Test	99
4.8.1.1	Correlogram of Squared Residuals	99
4.8.1.2	Breusch-Godfrey LM Test for Serial Correlation	100
4.8.2	Inverse Roots of ARMA Polynomials	100
4.8.3	ARMA Frequency Spectrum	101
4.9	Estimation of ARCH/GARCH Models	102
4.9.1	GARCH (1,1) Model and Its Stability	102
4.9.2	GARCH (1,2) Model	104
4.10	Forecasting Inflation by ARMA and ARCH Process	106
4.11	Conclusion of Chapter Four	108

CHAPTER FIVE

IMPACT OF REMITTANCE ON INFLATION

5.1	Political Instability	110
5.2	Remittance	111
5.3	Population Growth	113
5.4	Trend of Remittance in Nepal	114
5.4.1	Trend of Remittance by Hodric-Prescott Filter	115
5.5	Empirical Analysis	116
5.5.1	Johansen's Cointegration Test	117
5.5.2	Vector Error Correction (VEC) Models	119
5.5.3	Granger Causality Test Based on Wald Test	121
5.6	Stability of VEC Model	122
5.6.1	Portmanteau Test	123
5.6.1	VEC Heteroscedasticity Test	125
5.7	Conclusion of Chapter Five	126

CHAPTER SIX

UNIT ROOT TEST OF MONEY SUPPLY AND PRICE LEVEL

6.1	Introduction	128
6.2	Unit Root Test	129
6.2.1	Augmented Dickey-Fuller (ADF) Unit Root Test	129
6.2.2	Dickey-Fuller-GLS Unit Root Test	132
6.2.3	Phillips-Perron Unit Root Test	134
6.2.4	KPSS Unit Root Test	134
6.2.5	ERS Point-Optimal Unit Root Test	136
6.2.6	Ng-Perron Modified Unit Root Test	138
6.3	Conclusion of Chapter Six	140

CHAPTER SEVEN

COINTEGRATION, VECTOR ERROR CORRECTION

MODELING AND GRANGER CAUSALITY TEST

7.1	Introduction	141
7.2	Selection of Suitable Lags	141
7.3	Johansen's Cointegration Test between $\ln CPI_t$ and $\ln M_{1t}$	142
7.4	Vector Error Correction Modeling (VECM) [$\ln CPI_t$ and $\ln M_{1t}$]	144
7.4.1	Residuals Diagnostic of VECM	148
7.4.1.1	Correlogram-Q-Statistics of Residuals	149
7.4.1.2	Correlogram of Squared Residuals	149
7.4.1.3	Breusch-Godfrey Lagrange Multiplier Test for Serial Correlation	150
7.4.1.4	VEC Residuals Heteroscedasticity Test	150
7.4.2	Stability Test	151
7.4.2.1	Ramsey's RESET Test	151
7.4.2.2	CUSUM Test	154
7.4.2.3	CUSUM of Squared Test	155
7.4.2.4	Recursive Coefficient Test	155
7.5	Johansen's Cointegration Test between $\ln CPI_t$ and $\ln M_{2t}$	157
7.6	Vector Error Correction Modeling (VECM) [$\ln CPI_t$ and $\ln M_{2t}$]	159
7.6.1	Residuals Diagnostic of Equation (7.10)	163

7.6.1.1	Correlogram-Q-Statistics of Residuals	163
7.6.1.2	Correlogram of Squared Residuals	164
7.6.1.3	Breusch-Godfrey Lagrange Multiplier Test for Serial Correlation	164
7.6.1.4	VEC Residuals Heteroscedasticity Test	165
7.7	Stability Test	165
7.7.1	Ramsey's RESET Test	166
7.7.2	CUSUM Test	167
7.7.3	CUSUM of Squared Test	167
7.7.4	Recursive Coefficient Test	168
7.8	Granger Causality Test	168
7.9	Conclusion of Chapter Seven	170

CHAPTER EIGHT

DISTRIBUTED LAG MODEL FOR MONEY SUPPLY AND PRICE RELATIONSHIP

8.1	Distributed Lag Model	174
8.2	Almon Approach to Distributed Lag Models	176
8.3	Distributed Lag Models: Price Level and Narrow Money Supply	177
8.3.1	Redundant Test	178
8.3.2	Wald Coefficient Restriction Test	179
8.3.3	Polynomial Distributed lags ($dLnCPI_t$ Regressed on $dlnM_{1t}$)	180
8.4	Residuals Diagnostic of Distributed Lag Models	181
8.4.1	Correlogram of Squared Residuals	181
8.4.2	Breusch-Godfrey Lagrange Multiplier Test for Serial Correlation	182
8.4.3	Residuals Heteroscedasticity Test	182
8.5	Stability Test of Estimated Distributed Lag Models: $dLnCPI_t$ Regressed on $dlnM_{1t}$	183
8.5.1	Ramsey's RESET Test	183
8.5.2	CUSUM Test	185
8.5.3	CUSUM of Squared Test	186
8.5.4	Recursive Coefficient Test	186
8.6	Distributed Lag Models: Price Level and Broad Money Supply	187
8.6.1	Redundant Test	188

8.6.2	Wald Coefficient Restriction Test	189
8.6.3	Polynomial Distributed lags ($dLnCPI_t$ Regressed on $dlnM_{2t}$)	190
8.7	Residuals Diagnostic of Distributed Lag Models	191
8.7.1	Correlogram of Squared Residuals	191
8.7.2	Breusch-Godfrey Lagrange Multiplier Test for Serial Correlation	191
8.7.3	Residuals Heteroscedasticity Test	192
8.8	Stability Test of Estimated Distributed Lag Models: $dLnCPI_t$ Regressed on $dlnM_{2t}$	192
8.8.1	Ramsey's RESET Test	193
8.8.2	CUSUM Test	192
8.8.3	CUSUM of Squared Test	194
8.8.4	Recursive Coefficient Test	194
8.9	Impact of Indian Inflation on Nepalese Inflation	195
8.10	Conclusion of Chapter Eight	198

CHAPTER NINE

FORECASTING BY VECTOR AUTOREGRESSION MODELS

9.1	Vector Autoregressive (VAR) Models	201
9.2	Study on Narrow Money Supply and Price Level by VAR Model	203
9.3	Residuals Diagnostic of VAR Models ($dLnCPI_t$ Regressed on $dlnM_{1t}$)	207
9.3.1	Correlogram of Squared Residuals	207
9.3.2	Breusch-Godfrey LM Test for Serial Correlation	207
9.3.3	Residuals Heteroscedasticity Test	208
9.4	Stability Test of Estimated VAR Models ($dLnCPI_t$ Regressed on $dlnM_{1t}$)	208
9.4.1	Inverse Roots of Characteristic Polynomials	209
9.4.2	Ramsey's RESET Test	209
9.4.3	Coefficient Variance Decomposition	210

9.5	Study on Broad Money Supply and Price Level by VAR Model	212
9.6	Residuals Diagnostic of VAR Models ($dLnCPI_t$ Regressed on $dlnM_{2t}$)	216
9.6.1	Correlogram of Squared Residuals	216
9.6.2	Breusch-Godfrey LM Test for Serial Correlation	216
9.6.3	Residuals Heteroscedasticity Test	218
9.7	Stability Test of Estimated VAR Models ($dLnCPI_t$ Regressed on $dlnM_{2t}$)	219
9.7.1	Inverse Roots of Characteristic Polynomials	219
9.7.2	Ramsey's RESET Test	219
9.7.3	Coefficient Variance Decomposition	220
9.8	Conclusion of Chapter Nine	221

CHAPTER TEN

ANALYSIS OF MONEY SUPPLY AND PRICE LEVEL BY IMPULSE RESPONSE FUNCTION AND VARIANCE DECOMPOSITION

10.1	Impulse Response Function	223
10.1.1	Analysis of Impulse Response Function (M_1 Money Supply and Price Level)	227
10.1.2	Analysis of Impulse Response Function (M_2 Money Supply and Price Level)	231
10.2	Variance Decomposition	236
10.2.1	Variance Decomposition Results Analysis (M_1 Money Supply and Price Level)	238
10.2.2	Variance Decomposition Results Analysis (M_2 Money Supply and Price Level)	

	240
10.3 Conclusions of Chapter Ten	242

CHAPTER ELEVEN

STUDY WITH INVARIANCE PROPOSITION OF RATIONAL EXPECTATIONS

11.1 Introduction	243
11.2 ARIMA Model for M_1 Money Supply	243
11.2.1 Residuals Diagnostic Test of ARIMA (2,1,2) Model for M_1	246
11.2.1.1 Correlogram of Squared residuals	246
11.2.1.2 Breusch-Godfrey LM Test for Serial Correlation	246
11.2.1.3 Histogram Normality Test of Residuals	247
11.3 ARIMA Model for M_2 Money Supply	248
11.3.1 Residuals Diagnostic Test of ARIMA (2,1,2) Model for M_2	250
11.3.1.1 Correlogram of Squared Residuals	250
11.3.1.2 Breusch-Godfrey LM Test for Serial Correlation	251
11.4 Estimated ARIMA Models for M_1 and M_2 Money Supply	251
11.5 Regression of Price Level on Anticipated M_1 Money Supply	252
11.6 Regression of Price Level on Anticipated M_1 Money Supply	255
11.7 Conclusions of Chapter Eleven	255

CHAPTER TWELVE

SUMMARY, CONCLUSION AND POLICY IMPLICATION

12.1 Summary	257
12.2 Conclusion and Policy Implication	260
BIBLIGRAPHY	263

PUBLISHED ARTICLES IN JOURNALS (attached in thesis)

CERTIFICATES OF CONFERENCE ATTENDED (attached in thesis)
