PREFACE

ACKNOWLEDGEMENT

SUMMARY

CHAPTER I 1

INTRODUCTION 1

1.1 The Cosmic Rays 1

1.2 Extensive Air Shower 3

1.2.1 The Electromagnetic Component 4

1.2.2 The Muon Component 4

1.2.3 The Hadron Component 5

1.2.4 The Other Components 5

1.3 Theoretical Simulations of EAS 6

1.3.1 The Analytical Simulation 7

1.3.2 The Monte Carlo Simulation 7

1.4 Models for air shower simulations 8

REFERENCES 10

CHAPTER II 11

A BRIEF SURVEY OF RECENT EXPERIMENTS AND MONTE CARLO SIMULATIONS OF EAS 11

2.1 Distribution of electrons in EAS 11

2.2 Distribution of muons in EAS : 14

2.3 Monte Carlo Simulations of EAS using Different Models 20

2.3.1 The Scaling Model 20

2.3.2 The Scale Breaking Models 22

2.3.3 The Quark Gluon String (QGS) Model 27

REFERENCES.....	33
CHAPTER III	39
THE EXPERIMENTAL SET UP AND DATA ANALYSIS	39
SECTION-1	39
THE EXPERIMENTAL SET UP.....	39
3.1 <i>The Air Shower Array</i>	39
3.1.1 The Scintillation Counters	40
3.1.2 The Magnetic Spectrographs	40
3.2 <i>Electronic Control System of the Array</i>	44
3.2.1 Shower Selection and Electron Density Measuring System.....	45
3.2.2 The Magnetic Spectrograph Controlling System.....	46
3.3 <i>Calibration of the Scintillation Counters</i>	47
3.4 <i>Alignment of the Magnetic Spectrographs</i>	47
SECTION-II	49
THE DATA ANALYSIS AND ERROR ESTIMATION	49
3.5 <i>Scintillation Counter Data : The Shower Parameters</i>	49
3.6 <i>Magnetic Spectrograph Data : The Momentum of Muons</i>	51
3.6.1 Determination of the Momentum	52
3.6.2 Maximum Detectable Momentum of the Magnetic Spectrograph	53
3.6.3 Measurements with Zero Magnetic Field	54
3.7 <i>Simulation of Artificial Air Showers</i>	55
3.7.1 Error in Shower Parameters	55
3.7.2 The Detection Efficiency of the Array.....	56
REFERENCES.....	57
CHAPTER IV.....	58
THE EXPERIMENTAL RESULTS AND DISCUSSION.....	58
4.1 <i>The Measurements of Size and Age Parameters of the Air Showers</i>	59

4.2	<i>The Measurements of Electron Densities and their Distribution in EAS....</i>	60
4.3	<i>The Measurements of Muon Densities and Their Distributions in EAS.....</i>	61
4.3.1	The Lateral Distribution of Muons	61
4.3.2	Variation of Muon Density with Size of the EAS	64
4.3.3	The Integral Energy Spectra of Muons in EAS	65
4.4	<i>The Measurements of Total Number of Muons in EAS.....</i>	65
4.4.1	Variation of Total Number of Muons with Size of the EAS	66
4.4.2	The Integral Energy Spectra of Muons.....	67
4.5	<i>Comparision of the Measurements of Present Experiment with those of other experiments.....</i>	68
4.5.1	The measurements of muon densities in the EAS	69
4.5.2	The measurements of total number of muons in EAS	70
4.6	<i>Comparison of the Measurements of Present Experiment with Some Theoretical Results Calculated with Different Models of High Energy Particle Interaction.....</i>	73
4.6.1	Results obtained with the Scaling Model.....	73
4.6.2	Results obtained with some Scale Breaking Models	74
4.6.3	Results obtained with the Quark Gluon String (QGS) Model	77
4.7	<i>DISCUSSION AND CONCLUSION.....</i>	79
	REFERENCES.....	89
