

Acknowledgement

It is indeed a great pleasure for me to express my deep sense of gratitude to my honorable supervisor Dr. Basudeb Basu, Professor in Chemistry, University of North Bengal, Darjeeling for his inspiring guidance, parental attitude, solicitude behavior and constant encouragement through out the entire course of study.

Our Organic Synthetic Laboratory is always memorable for me, where I have spent some happiest and sorrowful moments of my life. It is difficult to search words for my laboratory colleagues, Dr. Md. M. H. Bhuiyan, Dr. S. Jha, Mr. N. K. Mridha, I. Hossain, S. Das and S. Sarkar for their help, co-operation, affection and lively companionship.

I offer my special thanks to Dr. A. K. Nanda, for exchanging his knowledge and helping hand for recording NMR and IR spectra.

I am grateful and wish to express thanks to Prof. B. C. Ranu, Prof. S. Lahiri, Prof. S. Ghosh, Prof. A. De. Indian Association for the Cultivation of Science, Kolkata; Dr. A. T. Khan, Indian Institute of Technology, Guwahati and Prof. S. Chandrashekharan, IISC, Bangalore for their valuable suggestion and cooperation for recording ^1H - and ^{13}C -NMR spectra and other analysis. Thanks are due to Indian Institute of Chemical Biology for recording ^1H - and ^{13}C -NMR spectra.

Thanks are also due to all teachers, staff members and scholars of the Department of Chemistry, NBU, Darjeeling.

Financial supports from DST and CSIR, Govt. of India is gratefully acknowledged.

The single largest contribution in properly shaping me what I am today comes from the faith, hope and pride of my parents, brothers and sisters. Words are inadequate for expressing such feelings.
