Scope and purpose of the study	
Methodology	
Review of literatures	
Constraints of the study	
Design of the study	

## **CHAPTER - I**..... 1-23

### **Physical background of the study area**

#### **Introduction**

- 1.1 Geology of the study area
- 1.2 Relief
  - 1.2.1 Relative relief
  - 1.2.2 Slope
  - 1.2.3 Dissection index
- 1.3 River
  - 1.3.1 Drainage pattern of the area
  - 1.3.2 Drainage density
  - 1.3.3 Drainage system in tea garden
  - 1.3.4 Utility of drainage in tea garden
- 1.4 Climate
  - 1.4.1 The role of different climatic factors in tea production
- 1.5 Soil
  - 1.5.1 Requirement of soil characteristics for te growin
  - 1.5.2 Soil types of the study area
    - 1.5.2 (i) Gray sand loam
    - 1.5.2 (ii) Mal sand
    - 1.5.2.(iii) Red bank soil
  - 1.5.3 Soil texture of the study area
  - 1.5.4 Essential plant nutrients
  - 1.5.5 P<sup>H</sup> of soil status of study area
- 1.6 Natural vegetation
  - 1.6.1 Management of shade tree in tea garden

1.7 Terrain classification of the study area

Conclusion

**CHAPTER - II** ..... 24-49

**History of tea plantation and tea industries**

**Introduction**

2.1 Establishment and growth of tea plantation

2.1.1 Place of origin

2.1.2 Classification of tea plant

2.1.3 Types of cultivated tea

2.1.4 Introduction of tea cultivation in India

2.1.5 Tea plantation in Jalpaiguri district

2.1.6 Tea plantaion in study area

2.2 Management of tea plantation

2.2.1 Managemet of young tea

2.2.1 (i) Requirement of land

2.2.1 (ii) Planting

2.2.1 (iii) Weed control

2.2.1 (iv) Irrigation requirements

2.2 Management of mature tea

2.2.2 (i) Pruning and skiffing

2.2.2 (ii) Tipping and plucking

2.3 Tea processing methods (early history)

2.4 Patterns of wonership and management

2.4.1 Tea gardens pattern of wonership

2.4.2 Types of management in the tea estates

2.5 Labour participation in tea industry

Conclusion

**CHAPTER - III** ..... 50-57

**Landuse in tea garden**

**Introduction**

3.1 Size and the shape of tea garden in the study area

3.2 Area under tea

3.3 Growth of area in different decades

3.4 Irrigated and Non irrigated area under tea

3.5 Area under different types of bushes

3.6 Land use for other purposes

3.6.1 Residential use

3.6.2 Factory and office use

3.5.3 Roads and other uses

Conclusion

**Production and marketing of tea****Introduction**

- 4.1 Locaiton of the tea factory
  - 4.2 Tea processing methods
    - 4.2.1 Types of tea processing methods
    - 4.2.1 (i) and (ii) Orthodox and CTC processing methods
    - 4.2.1 (ii) Oolong tea
    - 4.2.1 (iv) The green tea
    - 4.2.2 Tea processing methods of the study area
  - 4.3 Different types of tea
  - 4.4. Factors for tea production
    - 4.4.1 Rainfall and production
      - 4.4.1 (i) Co-relation between rainfall and production
      - 4.4.1 (ii) Plucking of tea
    - 4.4.2 (i) Plucking round
    - 4.4.2 (ii) Standard of plucking
    - 4.4.3 Production of tea in different decades
    - 4.4.4 Yield rate of tea
  - 4.5 Marketing of tea
  - 4.6 Cost of production
  - 4.7 Revenue from the tea export
  - 4.8 Financing in tea industry
- Conclusion

**Demographic character of the tea garden****Introduction**

- 5.1 Populaiton distribution and their growth
- 5.2 Density of population
- 5.3 Composition of population
- 5.4 Level of literacy
- 5.5 Religion and migration
- 5.6 Workers in tea plantation
- 5.7 Workers in tea garden and tea industry
- 5.8 Age-sex structure in the study area

**Conclusion**

**CHAPTER - VI**.....92-107

**Socio-economic structure of the people**

**Introduction**

- 6.1 Socio-economic functions
    - 6.1.1 Education
    - 6.1.2 Health service
    - 6.1.3 Electricity
    - 6.1.4 Communication and transport
    - 6.1.5 Market
    - 6.1.6 Water supply
    - 6.1.7 Sanitation and house type
    - 6.1.8 Family welfare and family planning
    - 6.1.9 Recreation and others
  
  - 6.2 Economic structure of tea workers
    - 6.2.1 Wage pattern of the workers
    - 6.2.2 Economic facilities provided by the management
- Concluding

**CHAPTER - VII**.....108-114

**Interaction between people and management**

**Introduction**

- 7.1 Main causes of conflict between employers and employee
- 7.2 Trends in intensity of work stoppage
- 7.3 Workers participation and conflict
- 7.4 Trade union in the tea garden

Conclusion

**CHAPTER - VIII**.....115-128

**Problems associated with tea industry**

**Introduction**

- 8.1 Physical problems
  - 8.1.1 Floods
  - 8.1.2 Drought
  - 8.1.3 Soil erosion
  - 8.1.4 Deforestation
  
- 8.2 Socio economic problems
  - 8.2.1 Low rate of literacy
  - 8.2.2 Limited occupational of pattern
  - 8.2.3 Paucity of different amenities
    - 8.2.3 (i) Health

- 8.2.3 (ii) Low transport and communication system
- 8.2.3 (iii) Poor marketing facilities
- 8.2.3 (iv) Poor electricity and water supply
- 8.2.3 (v) Social customs and superstition

- 8.3 Management problem
  - 8.3.1 Land management problems
  - 8.3.2 Wage pattern vs management problems
  - 8.3.3 Problems in world trade and marketing
- 8.4 Administrative problems
- Conclusion

**CHAPTER - IX**.....129-138

**Strategies for developments of tea gardens and tea industry**

**Introduction**

- 9.1 Development of tea industry before independence
- 9.2 Development after independence
  - 9.2.1 The tea board and research activities
  - 9.2.2 Financing in tea industry
  - 9.2.3 Regularisation of illegal tea garden
  - 9.2.4 Various labour welfare programmes
  - 9.2.5 Evolution of wage pattern in tea industry
  - 9.2.6 Social security for plantation workers
  - 9.2.7 Strategy for occupational safety and health for plantation workers
  - 9.2.8 Introduction of panchayet system in tea garden

Conclusion

**CHAPTER - X**.....139-142

Suggestions and conclusion

Bibliography .....143-151

Appendix ..... i-xviii
