

ACKNOWLEDGEMENT

I take this opportunity to express my deep sense of gratitude and reverence to my supervisor Dr. T. K. Chaudhuri for his novel guidance and bearing with me through the tedious parts of this work without which the progress of this work would not have been a success.

I am grateful to Dr. B. Sarkar, Reader, Department of Gynaecology & Obstetrics, North Bengal Medical College, for allowing me to attend the Out Patients Department (O.P.D) and for helping to select the patients clinically as well as to get the blood samples from time to time.

I am indebted to all the teachers, Department of Zoology for their encouragement and suggestions during the course of work. I am grateful to the Head, Department of Zoology, North Bengal University, for providing different facilities during the course of work. I am also grateful to the Head, Department of Chemistry, North Bengal University for providing the facilities of UV-Spectrophotometer.

I am very much thankful to my co-worker Mr. Tarun Kanti Sen for his valuable help during the experimental part.

Thanks are also due to the scholars and staffs of the Department of Zoology, for their co-operation in every respect. I am also thankful to Sri Bhupes Bagchi for his excellency and patience in drawing the figures, to Sri Surath Kr. Kundu and Sri Dwijendra Nath Singha for typing this manuscript and also to Sri Goutam Aitch for computer programming.

I wish to express my deep sense of gratitude to my parents and family members for their constant inspiration.

Lastly, I am also thankful to the Indian Council of Medical Research, New Delhi for awarding a fellowship.
