

## ACKNOWLEDGEMENT

It is a great opportunity for me to express my heartfelt gratitude to my respected supervisor Dr. B. Basu, Reader, Department of Chemistry, North Bengal University for his constant inspiration, in-flagging encouragement, moral support, positive attitude during the entire course of work. His valuable advice and parental attitude has ultimately led to the successful completion of this investigation.

I am grateful and wish to express thanks to Prof. B. C. Ranu, Prof. S. Lahiri, Prof. S. Ghosh, Prof. A. De, Indian Association for the Cultivation of Science, Kolkata; Dr. A. T. Khan, Indian Institute of Technology, Guwahati; and Prof. S. Chandrashekharan, IISc, Bangalore for their valuable suggestion and cooperation for recording  $^1\text{H}$ - and  $^{13}\text{C}$ -NMR spectra and other analyses. Thanks are due to Indian Institute of Chemical Biology for recording  $^1\text{H}$ - and  $^{13}\text{C}$ -NMR spectra.

I am also grateful to Prof. D. K. Hazra, Professor of Chemistry & Dean, P.G.Science, and Dr. A. K. Nanda, Head, Department of Chemistry, North Bengal University for their moral support and valuable guidance. I am indebted to Dr .A. Mazumdar, Department of Chemistry for recording IR-spectra. I wish to thank all the teachers and staff of the Department of Chemistry, N. B. U.

Any accomplishment requires the effort of many people and this work is not different. I am grateful to acknowledge to my fellow colleagues Mr. Pralay Das and Mr. M.M.H. Bhuiyan.

Financial supports from DST, Govt. of India and from the University of North Bengal are gratefully acknowledged.

Finally, I express my deep sense of indebtedness to my parents and to the members of my family for their continuous cooperation and a lot of sacrifice during the tenure of my research work. Without their heartfelt inspiration, the work would not have seen the light of day.
