

P R E F A C E

The work embodied in this thesis entitled "Studies on certain Aspects of Pesticides and their Residues" submitted for the degree of Doctor of Philosophy (Science) of the University of North Bengal relates mainly to the chemical analysis and physico-chemical studies on pesticides and their residues. A small piece of relevent work each with microbes and with an insect has also been done.

I thank Dr. B.R. Roy, Director, Central Food Laboratory, Calcutta and Hony. Lecturer, Department of Biochemistry, University of Calcutta, for guidance and encouragement. I am also deeply indebted to Prof. A.K. Ghose, Head of the Department of Chemistry, University of North Bengal for his kind interest. I am highly grateful to Mr. B. Majee, Lecturer, Department of Chemistry, North Bengal University, for valuable suggestion in conducting some of the critical studies of the present investigation. I am also indebted to Dr. K.C. Guha, Dr. A.K. Guha, and Dr. T.S. Banerjee of Central Food Laboratory, Calcutta, for helpful suggestions during the investigation. I would be failing in my duties if I do not express my gratitude and sincere thanks to all my colleagues in the Central Food Laboratory particularly to (Smt.) D. Mojunder, R. Mukherjee, A.K. Mukherjee and K.L. Saha.

My grateful thanks are also due to the following individuals who helped me in many ways: Prof. B.H. Ghose and Dr. D. Mukherjee of All India Institute of Hygiene & Public Health and Dr. T. Sengupta, Zoological Survey of India, Calcutta.

I am indebted to my parents for their constant encouragement, and to my wife for her keen interest. Thanks are due to P.C. Das for taking pains in typing this thesis.

Central Food Laboratory,
3, Kyd Street,
Calcutta-700016.
