

Acknowledgement

It is a great pleasure to express my deep sense of gratitude to my supervisor, Prof. B.N Chakraborty, Department of Botany, for his guidance, kind and valuable suggestions, discussions throughout the execution of this work. I am profoundly thankful to Prof. U. Chakraborty, the Head, Department of Botany for her generous help in the needy hours. I am also grateful to the teaching faculty of the Department of Botany, for providing me space to carry out my research work.

I would like to express my gratitude to all those teachers who guided me throughout my school and college days.

I thankfully acknowledge the help of the Directors of Tocklai Experimental Station, Jorhat, Assam and UPASI Tea Research Station, Valparai for providing tea root pathogens.

I would like to record my special thanks to Mr. Kiran Sunar, Mr. Panna Lal Dey, Mr. Utanka De, Mr. Arka Pratim Chakraborty, Ms Deepti Pradhan and all other research scholars of Immuno-Phytopathology Laboratory and Biochemistry Laboratory and good cooperation in the laboratory as well as during the preparation of this manuscript and field man Sri Sudarshan Tirki for his untiring helping in the field.

I am ever grateful to my parents and elder brother for providing their constant inspiration and encouragement. My immense gratitude to my spouse Mr. Ashit Kumar Mandal for empowering me financially, morally and technically in successful completion of this work and my sincere love to my little son Shiva for boosting my energy with his radiant smile.

Last but not least, mention must be made to all my friends and well wishers who have always stood by my side encouraging me to achieve my goal.
