ACKNOWLEDGEMENT	
ABBREVIATION	
GENERAL INTRODUCTION ..	1 - 9
ABSTRACT ..	10 - 15
 <u>CHAPTER - I</u>	
<u>REVIEW OF LITERATURE . :</u>	
Position of Balason-Catchment area in the background of the development of forest organisation in North Bengal ..	16 - 19
Major chemical components of Forest Soil other than that of Balason-Catchment area ..	20 - 22
Microbiological transformations of humus in soil ..	22 - 23
Role of leguminous plants in connection with the upliftment of fertility status of soil ..	23 - 26
Phytochemical investigation in connection with the identification of plant products-Rotenoids and Non-Rotenoids ..	26 - 30
Earlier report on chemical examination of <u>Tephrosia candida</u> DC. and related species ..	30 - 33
Quantitative estimation of Rotenoids and related chemicals ..	33 - 36
Seed Germination behaviour of <u>T. candida</u> and <u>Tephrosia</u> sp. ..	36 - 48

Ecological significance and biological degradation of phenolic compounds isolated from plant parts of <u>T. candida</u> DC. ..	48 - 50
Detoxification of rotenone and related chemicals ..	50 - 51
Allelopathy and plant growth with special emphasis on its ecological significance ..	52 - 53
LITERATURE CITED ..	196

CHAPTER - IICHEMICAL INVESTIGATION OF LEAF, ROOT, VIABLE AND NON-VIABLE SEEDS OF TEPHROSIA CANDIDA DC.

Introduction ..	54
Materials and Methods ..	55 - 62
Results and Discussion ..	62 - 95
Summary ..	96 - 97
LITERATURE CITED ..	196

CHAPTER - IIIA NEW SPECTROPHOTOMETRIC METHOD IN CONNECTION WITH QUANTITATIVE ESTIMATION OF ROTENONE AND ROTENOLS IN TEPHROSIA CANDIDA DC.

Introduction ..	98
Materials and Methods ..	98 - 100
Results and Discussion ..	101 - 106

Summary	..	107
---------	----	-----

LITERATURE CITED	..	196
------------------	----	-----

CHAPTER - IV

FERTILITY STATUS OF SOIL IN BALASON-
CATCHMENT AREA WITH SPECIAL EMPHASIS
ON TEPHROSIA CANDIDA DC. TO SHOW THE
IMPACT OF THE PLANT ON SOIL

Introduction	..	108
Materials and Methods	..	108 - 109
Results and Discussion	..	110 - 122
Summary	..	123 - 124
LITERATURE CITED	..	196

CHAPTER - V

QUANTITATIVE AND QUALITATIVE STUDY OF
DIFFERENT BIOCHEMICAL PARAMETERS IN
DIFFERENT PLANT PARTS OF TEPHROSIA
CANDIDA DC. AND IN THE SOIL OF THE
EXPERIMENTAL CULTURE

Introduction	..	125
Materials and Methods	..	125 - 131
Results and Discussion	..	132 - 141
Summary	..	142 - 143
LITERATURE CITED	..	196

CHAPTER - VISTUDY ON SEED GERMINATION BEHAVIOUR AND
SEEDLING GROWTH OF TEPHROSIA CANDIDA DC.
WITH SPECIAL REFERENCE TO NON-VIABILITY
OF SEED DURING STORAGE

Introduction	..	144
Materials and Methods	..	144 - 148
Results and Discussion	..	149 - 179
Summary	..	180 - 181
LITERATURE CITED	..	196

CHAPTER - VIIALLELOPATHIC EFFECT OF TEPHROSIA
CANDIDA DC.

Introduction	..	182
Materials and Methods	..	183 - 184
Results and Discussion	..	185 - 194
Summary	..	195
LITERATURE CITED	..	196

BIBLIOGRAPHY

196 - 231

APPENDIX - IMATERIOLOGICAL DATAAPPENDIX - IILIST OF AUTHOR'S PUBLICATIONS
