December 5, 2008

It gives me immense pleasure to certify that Mr. Riju Chanda, M.Sc. in Chemistry has carried out his research work embodied in the thesis entitled "Study on Viscous Synergy and Antagonism and Various Interactions Prevailing in Mono, Binary and Ternary Solvent Systems" based on his original work under my supervision and guidance. He is submitting his thesis for the award of Doctor of Philosophy (Science) degree in Chemistry according to the rules and regulations of the University of North Bengal.

I am much impressed for his keen interest and research aptitudes on such a applied and interesting field. In my opinion, he is fit and proper person for the degree of Doctor of Philosophy (Ph. D.) in Chemistry of the University of North Bengal.

Needless to say, he is very intelligent, alert, energetic, sincere and hard-working as he qualified 'National Eligibility Test' (NET), 'State Level Eligibility Test' (SLET) and 'Graduate Aptitude Test in Engineering' (GATE).

I wish him every success in life.

M. N. Roy
