

## A C K N O W L E D G E M E N T

Investigation presented in this thesis were carried out by the author at the Department of Chemistry, University of North Bengal, RajaRamanpur, Dist. Darjeeling.

The author takes this opportunity to express his deep sense of gratitude and thankfulness to Shri Bimal K. Das, Reader in Chemistry, North Bengal University, for his valuable suggestions, guidance and continued interest during the progress of the work.

The author is thankful to Prof. B. Dasgupta, Principal, Darjeeling Govt. College, Darjeeling for valuable discussions.

The author sincerely thanks Prof. S. K. Chakrabarty and Prof. A. K. Ghosh, Department of Chemistry, North Bengal University, for their interest and encouragement.

The author wishes to express his gratitude and indebtedness to:

Prof: M. Eto, Department of Agricultural Chemistry, Kyushu University, Fukuoka, Japan, for helping the author to get an analytically pure sample of salithion and also for a number of reprints.

Prof. J. H. Shoolery, Varian, NMR Application Laboratory, Palo Alto, California, USA, for the NMR spectra of some of the compounds

Mr. M. Pramanik, Mr. A. Sen, <sup>and</sup> Mr. K. Mukherjee.

Thanks to Mr. J. N. Sarker for typing the manuscript.

The author is also indebted to University Grants Commission, New Delhi, for awarding fellowship and financial support.

Department of Chemistry,  
North Bengal University,  
Rajshammohunpur,  
Darjeeling.

Prabin Roy  
(PRABIN ROY)

"The struggle between man and insects began long before the dawn of civilization, has continued without cessation to the present time, and will continue, no doubt, as long as the human race endures".
