## Chapter-I:

Necessity of the Research Work.....		1-8
1.1. Object and application of the Work.....	1	
1.2. Choice of the main Solvents used.....	3	
1.3. Method of Investigation.....	4	
1.4. Summary of the Work done.....	4	
References.....	7	

## Chapter-II:

Introduction with Review of the Earlier Works.....		9-53
2.1. Viscosity.....	10	
2.2. Conductance.....	23	
2.3. Apparent and Partial Molar Volumes and Apparent Molal Adiabatic Compressibility.....	35	
2.4. Some recent Trends in Solvation Models.....	40	
2.5. Viscous Antagonism and Synergy.....	41	
References.....	42	

## Chapter-III:

Experimental Section.....		54-58
3.1. Chemicals used: Their Sources and Purification....	54	
3.2. Experimental Techniques.....	55	
References.....	58	

## Chapter-IV:

Study of the Ion-Solvent Interactions of Some Alkali Metal Halides in Different Mass % of THF + H <sub>2</sub> O Mixtures at Various Temperatures.....		59-101
4.1. Introduction.....	59	
4.2. Materials and Methods.....	59	
4.3. Results and Discussion.....	60	
References.....	64	
Graphical Representation.....	78	

## Chapter-V:

Studies on Thermodynamic and Transport Properties of Two Binary Mixtures formed by Water, Methanol and Tetrahydrofuran at Different Temperatures.....		102-115
5.1. Introduction.....	102	
5.2. Results and Discussion.....	102	
5.3. Experimental.....	104	
References.....	105	
Graphical Representation.....	112	

## Chapter-VI:

Volumetric, Viscometric and Ultrasonic Studies of Some Nitrate Compounds in Aqueous Binary Mixture of Tetrahydrofuran at Various Temperatures.....		116-131
6.1. Introduction.....	116	
6.2. Results and Discussion.....	116	
6.3. Experimental.....	120	
References.....	121	
Graphical Representation.....	129	

<b>Chapter-VII:</b>	
Electrical Conductances of Tetraalkylammonium and Alkali Metal Salts in Aqueous Binary Mixtures of Tetrahydrofuran at Different Temperature.....	132-149
7.1. Introduction.....	132
7.2. Experimental Section.....	133
7.3. Results and Discussion.....	134
References.....	136
Graphical Representation.....	147
<b>Chapter-VIII:</b>	
Studies on the Densities, Viscosities and Adiabatic Compressibilities of Some Mineral Salts in Water at Different Temperatures.....	150-171
8.1. Introduction.....	150
8.2. Experimental.....	151
8.3. Results and Discussion.....	152
References.....	155
Graphical Representation.....	167
<b>Chapter-IX:</b>	
Studies on Viscous Antagonism of Ternary Mixtures at Various Temperatures.....	172-181
9.1. Introduction.....	172
9.2. Theoretical Consideration.....	173
9.3. Experimental Method.....	174
9.4. Results and Discussions.....	174
References.....	176
<b>Chapter-X:</b>	
Partial Molar Volumes, Transport Properties and Ultrasonic Speeds of Some Acetates in Aqueous Mixtures of Tetrahydrofuran at Various Temperatures.....	182-212
10.1. Introduction.....	182
10.2. Experimental.....	183
10.3. Results and Discussion.....	183
References.....	188
Graphical Representation.....	204
<b>Chapter-XI:</b>	
Concluding Remarks.....	213-216
<b>List of Publications.....</b>	<b>217</b>
