Declaration of Candidate	II
Plagiarism Certificate	III
Certificate from Supervisor	IV
Acknowledgement	V
Preface	VI
List of Figures	X
List of Tables	XI
List of Equations	XIII
List of Acronyms and Abbreviations	XV
Abstract	XVI
Chapter 1: INTRODUCTION.....	1
1.1. Prelude .....	1
1.2. Statement of Research Problem .....	2
1.3. Description of Study Area.....	3
1.3.1. Location and Extent .....	3
1.3.2. Geo-lithological Characteristics.....	5
1.3.3. Topography and Landforms .....	5
1.3.4. The Hydrological Characteristics.....	7
1.3.5. Climate and Climate Variability.....	8
1.3.6. Soil and Vegetation .....	9
1.3.7. LULC and Human Activities .....	10
1.4. Literature Review.....	10
1.4.1. Selection and Categorisation of Literatures .....	10
1.4.2. Methodological Review .....	13
1.4.3. Review of Research Outcomes .....	14
1.4.4. Identifying the Research Gap.....	17
1.5. Research Questions .....	18
1.6. Objectives.....	18
1.7. Database and Methodology.....	19

1.7.1. The Parameters and the Databases.....	19
1.7.2. Data Pre-Processing.....	20
1.7.3. Method of Data Analysis .....	21
1.8. Scope and Limitation .....	23
1.9. Concluding Remarks.....	23
Chapter 2: ANALYSIS OF STEP CHANGE AND TREND .....	24
2.1. Layout of the Chapter .....	24
2.2. Database and Methods .....	24
2.2.1. Data Sources .....	24
2.2.2. Data Pre-processing .....	25
2.2.3. Method of Data Analysis .....	28
2.3. Results and Discussion.....	36
2.3.1. The Results of Exploratory Data Analysis (EDA) .....	36
2.3.2. Results of Step Change Analysis .....	41
2.3.3. Results of Trend Analysis .....	47
2.4. The Overall Discussion.....	55
2.5. Findings in Brief.....	58
2.6. Concluding Remarks.....	59
Chapter 3: ANALYSIS OF HYDROLOGIC IMPACT.....	60
3.1. The Layout of the Chapter .....	60
3.2. Database and Methods .....	60
3.2.1. An Overview of the Methodology .....	60
3.2.2. Determining the Reference Period and Interference Period .....	62
3.2.3. SWAT Model and Input Database.....	62
3.2.4. Calibration and Validation .....	68
3.2.5. Sensitivity Analysis.....	69
3.2.6. SWAT Run and Analysis of Output .....	70
3.3. Results and Discussion.....	73
3.3.1. Results of the Model's Calibration and Validation .....	73
3.3.2. Results of Sensitivity Analysis.....	78

3.3.3. An Overview of Climate Variability and LULC Change .....	78
3.3.4. Relative Contribution of Climate Variability and LULC Change.....	81
3.3.5. Results of t-Test and Cohen's <i>d</i> .....	84
3.3.6. Overall Discussion.....	86
3.4. Findings in Brief .....	87
3.5. Concluding Remarks.....	88
Chapter 4: ANALYSIS OF RUNOFF SENSITIVITY .....	89
4.1. Layout of the Chapter .....	89
4.2. Database and Methods .....	89
4.2.1. Data Generation .....	89
4.2.2. Method of Analysis .....	91
4.3. Results and Discussion.....	93
4.3.1. Runoff Sensitivity to Forest Cover .....	93
4.3.2. Runoff Sensitivity to Agricultural Land.....	95
4.3.3. Runoff Sensitivity to Urban Built-up Area .....	98
4.4. Findings in Brief .....	99
4.5. Concluding Remarks.....	100
Chapter 5: MAJOR FINDINGS AND CONCLUSION.....	101
5.1. Summary of the Work Design.....	101
5.2. Objective-Wise Major Findings .....	104
5.3. Recommendation .....	109
5.4. Further Scope of the Research .....	109
5.5. Conclusion .....	109
References.....	111
Appendices.....	130
Publication.....	147
Certificate of Paper Presentation.....	158
