This is to certify that Miss. Ishani Gupta, M.Sc. worked in my laboratory since December, 1983 for her dissertation on the topic "Plant Physiological Investigation of *Tephrosia candida* DC. with special emphasis on its utilization in Eco-Development Programme in North Bengal, India" for fulfilment of the requirements of the Degree of Doctor of Philosophy (Science) of the University of North Bengal.

She is conversant with the techniques and literature cited in the dissertation and carried out the work thoroughly. It seems that the thesis is fit for submission for Ph.D. and she is worthy for award of the degree.
