3.24	Number of agricultural produce markets in India	77
3.25	Number of wholesale assembling, rural primary and regulated markets in states of India (As on 31.03.2008)	78
3.26	State-wise area served by regulated market	80
4.1	Area and production of principal crops in Coochbehar district of North Bengal	94
4.2	Area and production of principal crops in Darjeeling district of North Bengal	94
4.3	Area and production of principal crops in Jalpaiguri district of North Bengal	95
4.4	Area and production of principal crops in Uttar Dinajpur district of North Bengal	95
4.5	Area and production of principal crops in Dakshin Dinajpur district of North Bengal	96
4.6	Area and production of principal crops in Malda district of North Bengal	96
4.7	Primary haats/markets of districts of North Bengal	98
4.8	District wise Regulated Marketing Committees	98
4.9	Warehouses in Coochbehar	99
4.10	Warehouses in Jalpaiguri	99
4.11	Warehouses in Darjeeling	100
4.12	Warehouses in Uttar Dinajpur	100
4.13	Warehouses in Dakshin Dinajpur	100
4.14	Warehouses in Malda	101
4.15	District wise details of cold storages	101
6.1	General characteristics of sample farmer	127
6.2	Distribution of literacy level among the sample farmers family member	127
6.3	Age group wise distribution of sample farmers	127
6.4	Channel-wise and different farm size wise distribution of sample farmers	129
6.5	Distribution of quantity of jute marketed through different marketing channels	130

6.6	Category-wise number of farmers disposed jute in different places	131
6.7	Category-wise quantity of jute disposed in different places	132
6.8	Category wise number of farmers disposed jute through different intermediaries	133
6.9	Quantity of jute sold by different category of farmers to different intermediaries	134
6.10	Category-wise number of farmers disposed jute in different seasons	136
6.11	Category-wise quantity of jute disposed in different seasons	136
6.12	Pattern of price received by the producer in different seasons	137
6.13	Pattern of price received by the producers from different intermediaries in peak period and post harvest period	138
6.14	Item-wise cost of marketing incurred by producer farmer in different marketing channels	140
6.15	Item-wise marketing cost incurred by farias in different marketing channels	140
6.16	Item-wise marketing cost incurred by aratdars in different marketing channels	141
6.17	Item-wise marketing cost incurred by balers in different marketing channels	141
6.18	Channel-wise distribution of marketing cost	142
6.19	Channel-wise distribution of marketing margin of intermediaries	143
6.20	Channel-wise distribution of marketing cost and margin	143
6.21	Price Spread	146
6.22	Producer's share in consumer's (jute mill) rupee	146
6.23	Marketing efficiency in different marketing channels by Shepherd's Index Method	147
6.24	Marketing efficiency in different marketing channels by Acharya's Modified Method	148
6.25	Marketing efficiency in different marketing channels by Composite Index Method	148
6.26	Model summary	151
6.27	Coefficients	151
6.28	Means of transportation used by producers for moving jute to market	153

6.29	Frequency distribution of marketing problems faced by producer farmers	156
7.1	Year wise total production of jute and its procurement by the JCI	161
7.2	MSP and Ruling Market Rate as on: 30th Jun- 2011 (2010-2011 Crop Year)	162
7.3	Minimum Support Price for raw jute at up-country markets in different jute growing states for 2011-12 season	164

6.29	Frequency distribution of marketing problems faced by producer farmers	156
7.1	Year wise total production of jute and its procurement by the JCI	161
7.2	MSP and Ruling Market Rate as on: 30th Jun- 2011 (2010-2011 Crop Year)	162
7.3	Minimum Support Price for raw jute at up-country markets in different jute growing states for 2011-12 season	164
