

ACKNOWLEDGMENTS

It is a great pleasure for me to acknowledge my deepest sense of gratitude, indebtedness and honour to my academic supervisors Prof. Biswanath Bhattacharjee of the Department of Physics, University of North Bengal and Dr Kamal Kanti Nandi of the Department of Mathematics, University of North Bengal. Without their indispensable guidance, constant encouragement, untiring efforts, sympathetic advice and invaluable suggestions, this work would not have been possible. As a matter of fact, no measure of tribute would really equal what I owe them.

I am sincerely grateful to Dr J.Evans of the University of Puget Sound, Tacoma, Washington, with whom we have had numerous correspondences over the years culminating into collaborative works.

I am grateful to the Indian Council for Cultural Relations (ICCR), Government of India, for providing me a predoctoral fellowship under an exchange programme and the office staffs of ICCR for their kind cooperation at various stages.

I desire to express my every gratitude to Dr S.K.Ghosal of

the Department of Physics, University of North Bengal and Dr P.K.Saha of the Department of Mathematics, University of North Bengal for useful discussions and friendly cooperation throughout the work.

I am grateful to all the faculty members in general and research scholars especially S.K. Giri, P. Sarkar, Dr. B. Adhikary, R.Sharma, B.Roychowdhuri, S.Hoque, B.Bose of the Department of Physics and P.Talukdar of the Department of Mathematics, University of North Bengal, for their kind cooperation and assistance at various stages.

I also wish to acknowledge my indebtedness to my parents, wife Nargis, daughter Prama and other family members without whose patience, sacrifice and constant supports this work would not have been completed in time.

Finally, I wish to express my indebtedness to Mrs. Jyotsna Nandi, Archishman Nandi and Mrs. Tuhina Bhattacharjee for their love and affection towards all of us which made our stay here most pleasant.

University of North Bengal

April 1998.
