Page numbers

❖ INTRODUCTION -----	01
❖ MATERIALS AND METHOD -----	15
▪ MATERIALS	
▪ METHODS	
• Study of morphological variations in testes shape and size	
• Collection of testicular samples and preparation for Light Microscopy	
• Preparation for Scanning Electron Microscopy	
• Preparation for Transmission Electron Microscopy	
• Isolation and Purification of the DNA from sperm cells	
• Quantitation of Nucleic Acid Concentration by Optical Densitometry	
• DNA separation by Gel Electrophoresis	
• Fluorescence Activated Cell Sorting	
❖ OBSERVATION -----	42
• Study of Morphological and Metric variations in testes at different Seasons in three species of <i>Bufo</i>	
• Light Microscopic Observation	
• Scanning Electron Microscopic Observation	
• Transmission Electron Microscopic Observation	
• DNA Analysis	
Through Gel Electrophoresis	
Through Fluorescence Activated Cell Sorting	

❖ DISCUSSION	106
• Testicular size and composition	
• Sperm morphology	
• Sperm ultrastructure	
• DNA analysis studies	
• Phylogeny of Bufonidae	
• Concluding Remark	
❖ SUMMARY	142
❖ REFERENCES	159
❖ PUBLISHED PAPERS	187
