

Table of Contents

	Content	Page Number
I.	Dedication	i
II.	Acknowledgement	ii
III.	Abstract	iii-v
IV.	Preface	vi-viii
V.	List of Appendix	xiii
VI.	List of Tables	xiv-xvi
VII.	List of Figures	xvii
	CHAPTER – 1: Introduction	1
1.1	Prologue	2
1.2	A Quick Look Back to Indian Economic Polices	3-5
1.3	Statement of Problem	5-6
1.4	Theoretical relation between Stock market and Select Macroeconomic Variables	6-12
1.4.1	Industrial Activities and Stock Market	8-9
1.4.2	Inflation (WPI) and Stock Market	9
1.4.3	Yield Rates (YTB, YLGB) and Asset Price	9-10
1.4.4	Stock Market and Foreign Exchange Market	11-12
1.5	Conclusion	12-13
	References	14-18
	CHAPTER – 2: Review of Literature, Scope and Plan of the Study	19
2.1	Review of Literature	20-35
2.2	Gap in the Literature and Scope of the study	35-36
2.3	Objectives of the Study	36-37
2.4	Research Questions	37
2.5	Hypotheses of this study	37-38
2.6	Data, Time Period and Methodology	38-44
2.6.1	Data	38-39
2.6.2	Time Period	39-44
2.6.3	Methodology	44
2.7	Significance of the research	45
2.8	Chapters	45
2.9	Conclusion	45-46
	References	47-56
	CHAPTER – 3: Empirical Methodology	57
3.1	Introduction	58
3.2	Structural stability of the time series process	58-64
3.2.1	CUSUM- Test	59-60
3.2.2	Quandt-Andrews Breakpoint test	60-63

	Content	Page Number
3.2.3	Bai and Perron Test(1998, 2003)	63-64
3.3	Seasonality Test	64
3.4	Stationary Process	65-67
3.5	Non-stationary Process	67-73
3.5.1	Estimation of the Stationary or Non-stationary Process (Unit-root Test)	68-70
3.5.2	Augmented Dickey Fuller Test (ADF-test)	70-71
3.5.3	Augmented Dickey Fuller–Generalised Least Square (ADF–GLS) test	71-72
3.5.4	Ng – Perron test (NGP test)	72-73
3.6	Optimum lag-order	73-75
3.6.1	Akaike Information Criterion	73
3.6.2	Schwartz Information Criterion	74
3.6.3	Final Prediction Error Criterion (FPE)	74
3.6.4	Hannan-Quinn Information Criterion (HQC)	74-75
3.7	Measurement of the Relationship	75-89
3.7.1	Cointegration	77-78
3.7.2	CRDW Test	78
3.7.3	Engle-Granger Test	79-81
3.7.4	Johansen and Juselius Methodology	81-87
3.7.5	Error Correction Model (ECM)	87-88
3.7.6	The Significance of the Variables	88-89
3.7.7	Validity of the Relationship	89
3.8	Casualty Test	89-90
3.9	Impulse Response Analysis	90-92
3.10	Variance Decomposition Analysis	92-93
3.11	Summary	93-94
	References	95-102
	CHAPTER – 4: <i>Relation between Select Macroeconomic Variables and Stock Market in Pre and Post-liberalisation Periods</i>	103
4.1	Introduction	104-105
4.2	Empirical Assessment in Pre-liberalisation Period	105-135
4.2.1	Time Period and Data	105-106
4.2.2	Seasonality	106
4.2.3	Testing Stationarity and the Order of Integration of the Variables	106-108
4.2.4	Identifying the Optimum Lag-Order in VAR Framework	108-109
4.2.5	Identification of Co-integrating Ranks and the Deterministic Component	110-111
4.2.6	The Long-run Relationship	111-113
4.2.7	Test of Autocorrelation in Residuals	114

	Content	Page Number
4.2.8	Variables Present in Cointegrating Equation	115
4.2.9	Stability Test	115-117
4.2.10	Levels of Cointegrating Relation	117
4.2.11	The Short-term Dynamic Behavior	118
4.2.12	The Causal Relationship	118-119
4.2.13	The Innovation Accounting	120-135
4.2.13.1	Impulse Response Analysis	120-127
4.2.13.2	Forecast Error Variance Decomposition	127-135
4.3	Empirical Assessment of Post-liberalisation Period	135-190
	Old Period (01/12/1995 to 01/11/2009)	
4.3.1	Time Period and Data	136-162
4.3.1.1	Seasonality	136
4.3.1.2	Testing Stationarity and the Order of Integration of the Variables	136-138
4.3.1.3	Identifying the Optimum Lag-Order in VAR Framework	138-139
4.3.1.4	Identification of Co-integrating Ranks and the Deterministic Component	139-140
4.3.1.5	The Long-run Relationship	140-142
4.3.1.6	Test of Autocorrelation in Residuals	142
4.3.1.7	Variables Present in Cointegrating Equation	143
4.3.1.8	Stability Test	143-145
4.3.1.9	Levels of Cointegrating Relation	145
4.3.1.10	The Short-term Dynamic Behavior	145-146
4.3.1.11	The Causal Relationship	146-147
4.3.1.12	The Innovation Accounting	147-162
4.3.1.12.1	Impulse Response Analysis	147-154
4.3.1.12.2	Forecast Error Variance Decomposition	154-162
	Recent Period (01/12/1995 to 01/11/2009)	
4.3.2	Time Period and Data	163-190
4.3.2.1	Seasonality	163
4.3.2.2	Testing Stationarity and the Order of Integration of the Variables	163-165
4.3.2.3	Identifying the Optimum Lag-Order in VAR Framework	165-166
4.3.2.4	Identification of Co-integrating Ranks and the Deterministic Component	166-167
4.3.2.5	The Long-run Relationship	167-168
4.3.2.6	Test of Autocorrelation in Residuals	168-169
4.3.2.7	Variables Present in Cointegrating Equation	169
4.3.2.8	Stability Test	170-171
4.3.2.9	Levels of Cointegrating Relation	171-172

	Content	Page Number
4.3.2.10	The Short-term Dynamic Behaviour	172-173
4.3.2.11	The Causal Relationship	173-174
4.3.2.12	The Innovation Accounting	174-190
4.3.2.12.1	Impulse Response Analysis	174-181
4.3.2.12.2	Forecast Error Variance Decomposition	181-190
4.4	Variation in the Results Across Regimes	190-192
4.5	Summary and Conclusion	192-195
	References	196-203
	CHAPTER – 5: <i>Summary of the Findings, Limitations and Scope of the Future Study</i>	204
5.1	Summary of Findings	205-211
5.2	Policy Implications	211-213
5.3	Limitations and scope of the future study	213-214
	References	215
	Bibliography	216-238
	Publications during Research	241

V. List of Appendix

Sl. No.	Name of Appendix	Page Number
1.	List of the Acts that Shaped the Indian Economic Policy	239-240
