

Acknowledgements

With all my heart, I express my gratitude to my teachers and supervisors M. K. Sen and P. K. Saha. Their advice, guidance and inspiration have led me throughout this journey and enabled me to complete the thesis.

I am thankful to D. B. West of Illinois University, Urbana-Champaign, USA for co-authoring the topic discussed in Chapter 2 of this dissertation. I am also grateful to Sandip Das of ISI, Kolkata and Shamik Ghosh of Jadavpur University, Kolkata. Their encouragement and active interest have helped me prepare the topics of Chapter 4 and Chapter 5. I specially thank Shamik Ghosh for the long and fruitful discussions that we had with him when he came to our University as a visiting fellow for about two weeks during summer vacation in 2007.
