

Acknowledgement

I express my sincere gratitude to Dr. Dilip Kumar Das, Reader in the Department of Mathematics for suggesting problems and continuous guidance in the execution of this research work.

I take the opportunity of expressing my indebtedness to late Dr. B. Bhattacharyya, Ex-Head of the Department of Mathematics and former Director of plasma physics, University of North Bengal. Mainly his whole hearted encouragement to take up this work and further aiming at to make a comprehensive study on the rivers of North Bengal. inspired me to be engaged in this field of work.

In this regard, I would also like to remember my teacher Late Professor Dr. P Bhattacharyya, Department of Mathematics. N.B.U.

I am grateful to the members of my family sm. Shila Das wife, Shankhajit Das, son and Rituparna Das, daughter for their full co-operation during the time of this work.

I take the opportunity of conveying my deep gratitude to sri Arun Kumar Mitra, a noted teaching personality of Haldibari, to whom I much owe during the preparation of the papers of the thesis.

I also convey my gratitude to Mr. Sagar Sinha of Aditya Graphics for taking the pains of printing Thesis in his computer.

In fine, I would like to express my sincere gratitude to my bereaved parents late Tarini Prasad Das and Late Ashalata Das.
