

## CHAPTER CONTENTS

Chapter & Section Title	Page No.
<b>Chapter 1 Infrastructure &amp; the Railways</b>	<b>1-35</b>
1.1 The Economics of Infrastructure	1
1.1.1 Types of Infrastructure	2
1.1.2 Transportation & the Mobility of Resources	2
1.2 Global Availability of Transport Infrastructure	3
1.2.1 The Country Analysis	4
1.2.2 <i>Per Capita</i> Analysis	6
1.3 Financing Global Infrastructure Development	7
1.3.1 Financial Capitalism	7
1.3.2 Private Funding for Railway Infrastructure	8
1.3.3 Infrastructure Finance Theory	8
1.3.4 Promoting Infrastructural Finance	9
1.4 Infrastructure as a Public Good	11
1.4.1 Pricing Infrastructural Services	13
1.4.2 The Theory of Contestable Markets	14
1.4.3 Ramsey Pricing	15
1.5 A Review of Literature	16
1.5.1 <i>Literature on Economic &amp; Industrial Development</i>	17
1.5.2 <i>Literature on Transportation</i>	19
1.5.3 <i>Literature on Railways</i>	21
1.6 Railway Tariff Formation	22
1.6.1 The Nature of Railway Costs	23
1.6.2 Railway Costing Principles	23
1.6.3 Rate-Setting Principles & the Differential Tariff	25
1.7 Elements & Scope of the Present Investigation	27
1.7.1 The Railways in Indian Transportation Infrastructure	27
1.7.2 Freight Operations on the Indian Railways	28
1.7.3 Railway Freight-Capacity Planning & Transport Policy	28
1.8 Structure & Methodology of the Study	30
<i>Chapter References</i>	33
 <b>Chapter 2 Comparative Operational History of Major World Railways</b>	 <b>36-82</b>
2.1 The Railway Impact on Development	36
2.1.1 Comparative Railway Development	37
A. THE FIRST FOUNDATIONS: THE EUROPEAN RAILWAYS	
2.2 Railways in Britain	40
2.2.1 Dawning of the Railway Age	40
2.2.2 Railway Enterprise & Operations	42
2.2.3 Railway Technology & Institutions	44
2.2.4 The Response to Competition	47
2.2.5 Nationalisation & Denationalisation	49
2.3 The French Railways	50
2.3.1 Railway Development under Monopoly	51
2.3.2 Early Railway Innovations	53
2.3.3 Impact of Railway Nationalisation	54
2.3.4 Postwar Railway Reconstruction	56
2.3.5 SNCF Tariff Reforms	57
2.3.6 Impact of Roadways Competition	58
2.3.7 Reorganisation of Freight Operations	59
2.3.7a <i>The Régime Accélére</i>	60
2.3.7b <i>Full Trainload Traffic</i>	61
2.3.7c <i>The Régime Ordinaire</i>	61
2.3.7d <i>Intermodal Transportation</i>	62
B OTHER ASIAN RAILWAYS	
2.4 Railways in Japan	63
2.4.1 Investment by JNR and JR	63
2.4.2 The JNR Crisis and Railway Reforms	64
2.4.3 Causes of the JNR Crisis	65
2.4.4 Transport Pricing on Japanese Railways	65

<i>Chapter &amp; Section Title</i>	<i>Page No.</i>
2.4.5 Railway Privatisation & its Aftermath	66
2.5 The China Railway	67
2.5.1 Railways After the Revolution	68
2.5.2 New System Needs	68
2.5.3 Financing the New Railways	69
<b>C THE INDIAN RAILWAYS</b>	
2.6 The Mercantile Prelude	70
2.6.1 Early History of Railways	71
2.6.2 The Phase of Consolidation	73
2.6.3 The Phase of Modernisation	75
2.6.4 Reorganisation of Railways in India	76
<i>Chapter References</i>	79
<b>Chapter 3 Operational Performance of the Indian Railways</b>	<b>84-118</b>
3.1 Factors in IR Operational Performance	84
3.1.1 Growth of Intermodal Transportation Infrastructure	84
3.1.2 Social Considerations in IR Operations	86
3.1.3 Commercial Considerations in IR Operations	87
3.1.4 Freight Traffic Adaptation	87
3.2 The Problem of Adequacy of Returns to Railway Capital-at-Charge	89
3.2.1 Historical Analysis of Railway Capital Returns	90
3.2.2 Sources of Indian Railway Finance	95
3.2.3 Dividend Liabilities of Indian Railways	96
3.2.4 IR Provisions for Capital Depreciation	97
3.3 Early Freight Performance of Indian Railways	98
3.3.1 Freight Traffic & Tonnage Trends	99
3.3.2 Operational Intensity of Railway Freight	100
3.4 Railway Freight Trends over the Planning Period	102
3.4.1 Rising Tonnages	103
3.4.2 Growing Traffic Kilometerage	104
3.4.3 Increasing Freight Leads	107
3.5 The Commodity Freight-Mix	109
3.5.1 Importance of Bulk-Commodities in IR Freight	110
3.5.2 General Commodity Freight Trends	113
3.6 Critical Operational Constraints	116
<i>Chapter References</i>	117
<b>Chapter 4 Freight Capacity &amp; the Indian Railway Wagonfleet</b>	<b>119-157</b>
4.1 Capacity Factors in IR Freight Operations	119
4.1.1 Components of the IR Wagonfleet	119
4.1.1a <i>The Standard IR Wagon</i>	120
4.1.1b <i>Specialised IR Wagons</i>	120
4.2 Freight Capacity Development on the Indian Railways	121
4.2.1 Growth of IR Wagonfleet	121
4.2.2 Growth of IR Freight Capacity	123
4.3 IR Wagonfleet Composition	126
4.3.1 Freight Innovation and Wagon Design	127
4.3.2 IR Special Wagonfleet	127
4.4 Railway Technology and the Wagon Industry in India	132
4.4.1 The Historical Evolution of Wagon Manufacture	133
4.4.2 Wagon Technology Initiatives under the Plans	135
4.4.3 Wagon Manufacture through the Plans	136
4.4.4 Current Status and Organisation of the Indian Wagon Industry	137
4.4.4a <i>Production Structure</i>	138
4.4.4b <i>Production Planning and Materials Management</i>	139
4.5 Structural Peculiarities of the Indian Wagon Market	140
4.5.1 Problems of Allocative Efficiency	141
4.5.2 Problems of Wagon Pricing	142

<i>Chapter &amp; Section Title</i>	<i>Page No.</i>
4.5.3 Changing Face of the Indian Wagon Industry	143
4.6 Freight Efficiency & the Utilisation of IR Wagons	146
4.6.1 Running Efficiency of IR Wagons	146
4.6.2 Efficiency of Wagon Turnaround	149
4.6.3 Tractive & Loading Efficiency on IR	151
4.7 Freight Capacity & the Transportation Infrastructure	154
<i>Chapter References</i>	155
<b>Chapter 5</b> <b>Determinants of Railway Freight Capacity in India</b>	<b>158-195</b>
5.1 The Policy Determinants	158
5.1.1 The Components of Government Transportation Policy	159
5.1.2(a) Transport Committees & Commissions in post-1947 India	160
5.1.2(b) Railway Rates & Tariff Commissions	162
5.1.3 Projections of Transportation Demand	165
5.1.4 Policy Implications for IR	168
5.2 The Capital Determinants	169
5.2.1 Railway Capitalisation during the Plans	169
5.2.2 Capital Financing Modes	174
5.3 The Capacity Determinants	177
5.3.1 The Roots of Freight Capacity Inadequacy	178
5.3.2 Freight Capacity Modelling	179
5.3.2(i) Model Estimation Procedures	180
5.3.2(ii) Modelling Results	181
5.3.3 Freight Policy Consequences	185
5.4 Critical Evaluation of IR Freight Policy	188
<i>Chapter References</i>	189
<i>Chapter Appendix</i>	191
<b>Chapter 6</b> <b>Commodity-Interdependence in Railway Freight Operations</b>	<b>196-234</b>
6.1 Commodity-Freight Trends on IR	196
6.1.1 Evolution of the IR Freight-Mix over the Plans	196
6.1.2 IR Traffic Performance in the Post-Reform Period	199
6.1.3 The Emergence of Intermodal Competition	200
6.1.4 IR Response to Freight Competition	201
6.2 IR Wagon-loading Trends	202
6.2.1 The Commodity-loading Dataset: <i>A Visual Preview</i>	202
6.2.1a <i>Mining &amp; Heavy Industrials</i>	205
6.2.1b <i>Agricultural Products &amp; Raw Materials</i>	208
6.2.1c <i>Light Industrials</i>	209
6.2.2 Freight Adaptation & the IR Commodity-freight Mix	209
6.3 IR Wagon-Loadings: Regression Analysis	213
6.3.1 Multiple Regression Modelling	213
6.3.2 Cross-Commodity & Cross-Gauge Interrelationships in IR Freight	215
6.4 Analysis of OLS Residuals	217
6.4.1 Tests for Heteroscedasticity in the OLS Residuals	219
6.4.2 Serial Correlation in the OLS Residuals	220
6.4.3 Autoregressive Serial Dependence Schemes	222
6.4.4 Autocorrelation Analysis of OLS Residuals	223
6.4.5 Phase Analysis of Residuals	226
6.5 Model Adjustment for Serial Correlation	229
6.5.1 The Cochrane-Orcutt Modelling Procedure	229
6.5.2 Analysis of Adjusted Commodity Coefficients	230
6.6 Longterm Freight Implications for IR	232
<i>Chapter References</i>	233
<b>Chapter 7</b> <b>Spatial &amp; Sectoral Impact of Railway Freight Specialisation</b>	<b>235-270</b>
7.1 IR Technology & Freight Specialisation	235
7.2 Spatial Nature of IR Freight Flows	236

<i>Chapter &amp; Section Title</i>	<i>Page No.</i>
7.2.1 Freight Flow & Regional Economic Development	237
7.2.2 Regional Importance of Railways	237
7.3 Spatial Distribution of IR Infrastructure	238
7.3.1 Route & Track Characteristics of IR Zonal Networks	239
7.3.2 IR Zonal Traffic Intensity	240
7.3.3 Traffic Intensity & Zonal Freight Density	241
7.3.4 Spatial Factors in Freight Distribution	243
7.4 Profitability of Zonal Railway Operations	243
7.4.1 Operational Efficiency in IR Zonal Railways	245
7.4.2 Railway Productivity in the IR Zonal Railways	246
7.5 Sectoral Impact of IR Commodity-Freight Trends	248
7.5.1 Sectoral Characteristics in IR Freight Loading	248
7.5.2 Excess Capacity & Freight Adjustment	250
7.5.3 Freight Market Contests	251
7.5.4 Modelling the IR Freight-Adjustment Process	252
7.6 Factor Analysis of IR Freight Adjustment	254
7.6.1 IR Freight-Adjustment Mixes	255
7.6.2 Interdependence in IR Commodity-Loadings	262
7.6.3 Commodity Dominance & IR Freight Capacity	264
7.6.4 Sectoral Character of IR Commodity-Freight Flows	267
7.7 Freight Specialisation & IR Freight Share	268
<i>Chapter References</i>	269
<b>Chapter 8</b> <b>Future Freight Policy for the Indian Railways</b>	<b>272-300</b>
8.1 Critical Findings from the Study	272
8.1.1 The Railways as Infrastructure	272
8.1.2 Infrastructural Policy Issues	273
8.1.3 Financing the Railways	276
8.1.4 Railway Operational Trends in India	278
8.1.5 The Growth of IR Freight Capacity	280
8.1.6 Freight Capacity Planning and IR Freight Preferences	283
8.1.7 Evolution of IR Freight Handling Patterns	285
8.1.8 Freight Operations & the Evolution of Commodity-Freight Patterns	289
8.2 Critical Problems of the Indian Railways	290
8.2.1 Insights into the Weaknesses of IR	291
8.2.2 Operational Genesis of the Above Problems	292
8.2.3 Inefficiencies in Management	293
8.2.4 Operational Inefficiencies	293
8.3 Policy Review & Recommendations	294
8.4 IR: Scenarios for the Future	296
<i>Chapter References</i>	300
<i>Bibliography</i>	301
