

## CONTENTS

Page No.

1.	<b>Summary</b>	(I – XVIII)
2.	<b>Chapter – I</b>	
	A short review on the action of N-bromosuccinimide on triterpenoids and steroids .....	1 – 2
	<b>Section A : Action of NBS on friedelin and its derivatives</b> .....	3 – 8
	<b>Section B : Bromine and NBS oxidation of saturated hydrocarbon friedelane</b> .....	9 – 12
	<b>Section C : Oxidation of allylic methylene to carbonyl group</b> .....	13 – 38
	<b>Section D : Bromination and dehydrobromination</b> .....	39 – 40
3.	<b>Chapter – II : Studies on the reaction of Moretenyl acetate and N-bromosuccinimide in dimethyl sulphoxide</b> .....	41 – 55
4.	<b>Chapter – III : Action of N-bromosuccinimide on diosgenin acetate in dimethyl sulphoxide</b> .....	56 – 72
5.	<b>Chapter – IV : Studies on the action of N-bromosuccinimide in dimethyl sulphoxide on dimedone</b> .....	73 – 76
6.	<b>Chapter – V : Action of N-bromosuccinimide and dimethyl sulphoxide on benzoyl acetone</b> .....	77 – 79
7.	<b>Chapter – VI : Experimental details of reactions carried out in chapters II, III, IV and V</b> .....	80 – 97
8.	<b>Reference</b> .....	98 – 99
