

Acknowledgement

First of all, I take this opportunity to express my most earnest gratitude to my respected teacher and supervisor, Dr. Mahendra Nath Roy, Reader, Department of Chemistry, University of North Bengal, Darjeeling, India for his constant guidance, priceless suggestions, inspirations and constructive criticism. Without his loving care, scrupulous guidance and precious supervision, it would not have been possible for me to bring the present contour to this thesis. I shall ever remain grateful to him.

I also express my profound sense of gratitude to all of my respected faculty members and thanks to the non-teaching staff, Department of Chemistry, University of North Bengal for their helpful assistance and continual inspiration during the course of my research work.

I am grateful to the University authority for providing library and laboratory amenities, especially Computer Centre and University Scientific Instrumentation Centre (USIC) for helping me in my research.

My special thanks are also due to Dr. Anuradha Sinha, Riju Chanda, Rajesh Kumar Das, Pran Kumar Roy and Gargi Ghosh of our research laboratory for their valuable assistance and cooperation during my research work.

The inspiration and encouragement that I received from my family members, specially my mother, sister and Dr. Goutam Kali is most elegantly acknowledged. No word would be enough to reimbursement their contributions for the success of the present research work.

It is impossible for me to express my gratitude to those authors of monographs, articles etc. from which I have calm information related to my research work. I can only hope that some measure of my gratitude is expressed by the references I have cited to their works.

Finally, I would also like to record my thankfulness to the Departmental Special Assistance Scheme under the University Grants Commission, New Delhi (No.F 540 / 27 / DRS / 2007, SAP-1) for financial and instrumental assistance in connection with my research work.
