Abstract	X
Chapter-I	
Introduction	1-24
1.1 Introduction	1
1.2 Statement of the problems	3
1.3 Study area	4
1.4 Review of related literature	6
1.5 Aims and objectives	14
1.6 Hypothesis	15
1.7 Methodology	15
1.7.1 Primary data	15
1.7.2 Sampling method and sample size	17
1.7.3 Likert scale	18
1.7.4 Secondary data	18
1.8 Data analysis method	18
1.9 Limitations	19
2.0 Conclusion	19
References	19-25
Chapter-II	
Determinants of Agriculture in Maldah District	26-73
2.1 Introduction	26
2.2 Physical determinants	26
2.2.1 Physiography	26
2.2.1.1 Tal region	27
2.2.1.2 Barind region	28
2.2.1.3 Diara region	28
2.2.2 Water resources	30

2.2.2.1	Water bodies	31
2.2.2.1.1	Drainage	31
2.2.2.1.2	Beels and tanks	32
2.2.2.2	Groundwater	33
2.2.3	Soils	36
2.2.3.1	Old alluvium soils	36
2.2.3.2	Vindhyan alluvium soils	37
2.2.3.3	Ganga alluvium soils	37
2.2.4	Soil pH and nutrients	37
2.2.5	Climate	40
2.2.5.1	Rainfall	40
2.2.5.2	Temperature	42
2.2.5.3	Humidity	43
2.2.5.4	Wind speed	44
2.2.5.5	Water balance	44
2.3	Socio-economic determinants	46
2.3.1	Population density	46
2.3.1.1	Arithmetic density	47
2.3.1.2	Physiological density	49
2.3.1.3	Agricultural density	49
2.3.1.4	Caloric density	52
2.3.2	Literacy status	52
2.3.3	Occupational structure	54
2.3.4	Landholding pattern	58
2.3.5	Irrigation	60
2.3.6	Agricultural implements	64
2.3.7	Chemical fertilizers	66
2.3.8	Transport facilities	68
2.3.9	Marketing facilities	71
2.4	Conclusion	70
	References	71-73
Chapter-III	Land Use Pattern and Changes Therein	74-113
3.1	Introduction	74

3.2 Concept of land use	74
3.3 Land use classification	75
3.4 Methodology	76
3.4.1 LULC features extraction	76
3.4.2 Image classification	76
3.4.3 Accuracy assessment	77
3.4.4 Change detection	78
3.4.5 Various indices of LULC classification	78
3.4.5.1 NDVI	78
3.4.5.2 SAVI	79
3.4.5.3 NDWI	79
3.4.5.3 NDBI	79
3.5 Land use pattern and its changing scenario	79
3.5.1 Accuracy level	80
3.5.2 Land use pattern of Maldah district in 1980	81
3.5.2.1 Indices used for LULC classification	82
3.5.2.1.1 NDVI	82
3.5.2.1.2 SAVI	82
3.5.2.1.3 NDWI	82
3.5.2.1.4 NDBI	84
3.5.2.2 LULC classification and its spatial distribution	84
3.5.2.2.1 Agricultural land	84
3.5.2.2.2 Waterbody	85
3.5.2.2.3 Vegetation cover	85
3.5.2.2.4 Built-up area	86
3.5.2.2.5 Barren land	86
3.5.3 Land use pattern of Maldah district in 2001	88
3.5.3.1 Indices used for LULC classification	88
3.5.3.1.1 NDVI	88
3.5.3.1.2 SAVI	90
3.5.3.1.3 NDWI	90
3.5.3.1.4 NDBI	90
3.5.3.2 LULC classification and its spatial distribution	90

3.5.3.2.1	Agricultural land	90
3.5.3.2.2	Waterbody	91
3.5.3.2.3	Vegetation cover	91
3.5.3.2.4	Built-up area	93
3.5.3.2.5	Barren land	94
3.5.4	Land use pattern of Maldah district in 2021	94
3.5.4.1	Indices used for LULC classification	94
3.5.4.1.1	NDVI	94
3.5.4.1.2	SAVI	94
3.5.4.1.3	NDWI	94
3.5.4.1.4	NDBI	95
3.5.4.2	LULC classification and its spatial distribution	96
3.5.4.2.1	Agricultural land	96
3.5.4.2.2	Waterbody	97
3.5.4.2.3	Vegetation cover	97
3.5.4.2.4	Built-up area	97
3.5.4.2.5	Barren land	97
3.5.5	LULC changes from 1980 to 2001	99
3.5.5.1	Changes in agricultural land	100
3.5.5.2	Changes in waterbody	101
3.5.5.3	Changes in vegetation cover	102
3.5.5.4	Changes in built-up area	103
3.5.5.5	Changes in barren land	104
3.5.6	LULC changes from 2001 to 2021	105
3.5.6.1	Changes in agricultural land	106
3.5.6.2	Changes in waterbody	106
3.5.6.3	Changes in vegetation cover	107
3.5.6.4	Changes in built-up area	108
3.5.6.5	Changes in barren land	110
3.6	Conclusion	111
	References	112-113
Chapter-IV	Spatio-Temporal Changes in Agricultural Land Use Pattern	114-190

4.1 Introduction	114
4.2 Concept of agricultural land use	114
4.3 Methodology	115
4.3.1 Autocorrelation function (ACF)	115
4.3.2 Mann-Kendall test	115
4.3.3 Modified Mann-Kendall test	116
4.3.4 Sen's slope estimator	117
4.3.5 Innovative trend analysis	117
4.4 Trend and spatial variation of the crops	118
4.4.1 Some exploratory statistics of Cereals	118
4.4.2 The trend of Cereals	119
4.4.2.1 Rice (<i>Oryza sativa</i>)	119
4.4.2.1.1 Autumn rice (aus)	119
4.4.2.1.2 Winter rice (aman)	120
4.4.2.1.3 Summer rice (boro)	122
4.4.2.2 Wheat (<i>Triticum aestivum</i>)	124
4.4.2.3 Maize (<i>Zea mays</i>)	125
4.4.3 Spatio-temporal changes of cereals	126
4.4.4 Some exploratory statistics of pulses	130
4.4.5 The trend of pulses	131
4.4.5.1 Gram (<i>Cicer arietinum</i>)	131
4.4.5.2 Lentil/masoor (<i>Lens culinaris</i>)	132
4.4.5.3 Urad/ maskalai (<i>Vigna mungo</i>)	134
4.4.5.3 Khesari (<i>Lathyrus sativus</i>)	134
4.4.6 Spatio-temporal changes of pulses	135
4.4.7 Some exploratory statistics of oilseeds and cash crops	138
4.4.8 The trend of oilseeds and cash crops	139
4.4.8.1 Rapeseed (<i>Brassica napus</i>) & mustard (<i>Brassica nigra</i>)	139
4.4.8.2 Jute (<i>Corchorus</i>)	141
4.4.8.3 Sugarcane (<i>Saccharum officinarum</i>)	143
4.4.8.4 Potato (<i>Solanum tuberosum</i>)	143

4.4.9 Spatio-temporal changes of oilseeds and cash crops	145
4.5 Agricultural regionalization and its changes	150
4.5.1 Crop ranking	151
4.5.1.1 Methodology	151
4.5.1.2 Crop ranking region and its changing pattern	152
4.5.1.3 Spatial pattern of crop ranking region	153
4.5.1.3.1 First-ranking crops	153
4.5.1.3.2 Second-ranking crops	155
4.5.1.3.3 Third-ranking crops	155
4.5.1.3.4 Fourth-ranking crops	156
4.5.1.3.5 Fifth-ranking crops	156
4.5.1.3.6 Sixth-ranking crops	158
4.5.2 Crop combination	160
4.5.2.1 Methodology	161
4.5.2.2 Spatial pattern of crop combination region	162
4.5.2.2.1 Mono crop combination	162
4.5.2.2.2 Two crop combinations	164
4.5.2.2.3 Three crop combinations	164
4.5.2.2.4 Five crop combinations	165
4.5.3 Crop diversification	166
4.5.3.1 Methodology	167
4.5.3.2 Spatial pattern of crop diversification region	167
4.5.3.2.1 High crop diversification	168
4.5.3.2.2 Medium crop diversification	168
4.5.3.2.3 Low crop diversification	170
4.5.4 Crop concentration	172
4.5.4.1 Methodology	172
4.5.4.2 Spatial pattern of crop concentration region	173
4.5.4.2.1 Autumn rice (aus)	173
4.5.4.2.2 Winter rice (aman)	174
4.5.4.2.3 Summer rice (boro)	174
4.5.4.2.4 Wheat	176

4.5.4.2.5 Maize	176
4.5.4.2.6 Gram	177
4.5.4.2.7 Lentil (masoor)	177
4.5.4.2.8 Urad (maskalai)	179
4.5.4.2.9 Khesari	179
4.5.4.2.10 Rapeseed & mustard	180
4.5.4.2.11 Jute	180
4.5.4.2.12 Sugarcane	181
4.5.4.2.13 Potato	181
4.5.5 Intensity of cropping	182
4.5.5.1 Methodology	182
4.5.5.2 Spatial pattern of cropping intensity region	183
4.5.6 Conclusion	187
References	188-190
Chapter-V Cost-Benefit Analysis of Major Crops	191-220
5.1 Introduction	191
5.2 Socio-economic characteristics of the respondents	191
5.3 Methodology for cost-benefit analysis	194
5.3.1 Concept of Cost	194
5.3.1.1 Operating cost (Cost A)	194
5.3.1.2 Opportunity cost of operating capital (Cost B)	194
5.3.1.3 Opportunity cost of family labour (Cost C)	194
5.3.1.4 Total enterprise cost (Cost D)	194
5.3.2 Farmers profit	194
5.3.2.1 Total revenue	194
5.3.2.2 Gross profit	195
5.3.2.3 Net profit	195
5.3.3 Rates of returns	195
5.3.3.1 Return to operating cost	195
5.3.3.2 Return to total cost	195
5.3.3.3 Return to family labour, land, management per day	195
5.3.4 Procedure for imputation of values of farm inventory and inputs	196

5.3.4.1 Seeds	196
5.3.4.2 Farmyard manure	196
5.3.4.3 Fertilizers	196
5.3.4.4 Plant protection chemical	196
5.3.4.6 Irrigation charges	196
5.3.4.7 Human labour	196
5.3.4.8 Bullock labour	196
5.3.4.9 Marketing costs	197
5.3.4.11 Interest in working capital	197
5.3.4.12 Fixed cost	197
5.3.4.12.1 Depreciation cost	197
5.3.4.12.2 Electricity costs	197
5.3.4.12.3 Other fixed costs	198
5.4 Cost-benefit analysis of major crops of the study area	198
5.4.1 Winter rice (aman)	198
5.4.2 Summer rice (boro)	200
5.4.3 Wheat	200
5.4.4 Maize	202
5.4.5 Lentil (masoor)	204
5.4.6 Urad (maskalai)	205
5.4.7 Rapeseed & mustard	207
5.4.8 Jute	210
5.4.9 Potato	210
5.5 Comparison of different aspects of cost-benefit analysis among marginal, small, and large farmers	215
5.5.1 Total operating costs	215
5.5.2 Total labour requirements	215
5.5.3 Gross profit	216
5.5.4 Net profit	216
5.5.5 return to operating cost	217
5.5.6 Return to the total cost	218
5.5.7 Return to family labour, land, and management per day	218

	5.6 Conclusions	219
	References	219-220
Chapter-VI	Driving Forces of Agricultural Land Use Change	221-252
	6.1 Introduction	221
	6.2 Identifying driving forces of ALU in the study area	221
	6.3 Methodology	221
	6.4 Farmer's perceptions on different driving forces of ALU change	226
	6.4.1 Ecological or biophysical drivers of ALU change	227
	6.4.2 Economic drivers of ALU change	229
	6.4.3 Socio-cultural drivers of ALU change	233
	6.4.4 Technological and institutional drivers of ALU change	236
	6.5 Modelling of driving factors on the AHP framework	239
	6.5.1 Ranking of ecological or biophysical drivers	242
	6.5.2 Ranking of economic drivers	243
	6.5.3 Ranking of socio-cultural drivers	245
	6.5.4 Ranking of technological and institutional drivers	246
	6.6 Conclusions	249
	References	249-252
Chapter-VII	Impacts of Agricultural Land Use Change on Farmers Livelihood Assets	253-277
	7.1 Introduction	253
	7.2 Identifying farmer's livelihood assets in the study area	253
	7.3 Methodology	254
	7.4 Farmer's perception regarding the impact of ALU change on their livelihood assets	256
	7.4.1 Impact of ALU changes on physical and cultural assets	257

7.4.2 Impact of ALU changes on human assets	261
7.4.3 Impact of ALU changes on social assets	263
7.4.4 Impact of ALU changes on financial assets	266
7.5 Nature of the impact of ALU changes	268
7.6 Ranking of the impact variables of ALU change in the study area	270
7.7 Conclusion	276
References	276-277
Chapter-VIII Summary and Conclusion	278-285
8.1 Introduction	278
8.2 Major findings	278
8.3 Hypothesis testing	280
8.4 Major problems of ALU change	281
8.5 Recommendations	282
8.6 Conclusion	285
Bibliography	286-303
Index	304-313
Appendices	314-338
Appendix-A Supplementary tables	314-323
Appendix-B - Research questionnaire	324-331
Appendix-C - List of abbreviations	332-334
Appendix-D - Glossary of the terms	335
Appendix-E - Copy of certificates of paper presentation in a seminar	336-337
Appendix-F- List of publications	338
