

## CERTIFICATE

I am indeed very happy to certify that the thesis submitted by **Ms. Madhumita Sen** is the result of her original study and research. I am impressed by her independent thinking and observations.

The philosophical part of the thesis has valuable insights into the problem under investigation, and much of her ideas and reflections are corroborated by her findings in the empirical part.

I recommended the thesis for evaluation. I consider the thesis an important contribution to sociological and women studies.

P. Roy

Supervisor of the project of research
