

ACKNOWLEDGEMENT

With deep sense of sorrow, concern and tears I express my heartfelt indebtedness to my father Mr. Mani Ghosh, who was the source of my all supports and I feel extremely sad for not being to bring out my thesis while he was still alive which he was dreaming since long.

It is my pleasure to acknowledge the help and co-operation extended by persons in preparation of this thesis. First and foremost, I wish to express my deepest gratitude to my research supervisor Dr. A.P. Das, Professor of Botany, Taxonomy and Environmental Biology Laboratory, North Bengal University, at the cost of whose time, invaluable guidance, encouragements, suggestions, supports and love for this research work has been carried out. I am also grateful to my co-guide Dr. S.E. Kabir for his help, guidance and encouragements.

I am grateful to the Head and all other teachers as well as the faculty members of the Department of Botany, North Bengal University for their cordial support. I also wish to express my gratefulness to the authority of North Bengal University and to the staff of N.B.U. library for their constant cooperation.

I owe my special thanks to my co-guide Dr. S. E. Kabir and Mr. V. S. Parmar, Advisor, Chamong TEE Group for selecting Tea gardens in Darjiling District and providing my accommodation, help and supports specially during the field work. Of course I am grateful to the authorities of different tea gardens for permitting me to use their gardens for the present work. I should thankfully remember of officials of Hansqua Tea Estate, Kamalpur Tea Estate, Matigara Tea Estate, Mohurgong & Gulma Tea Estate, Makaibari Tea Estate, Tamsong Tea Estate and Soom Tea Estate for extending various kinds of help and co-operation during my fieldwork.

It will be a gross injustice if I do not thankfully remember all those persons who helped me very much during my field works namely Mr. Sudarsan Tirki, Mr. Subodh Tigga, Mrs. Jharo Tigga (Hansqua Tea Estate), Mr. Rupna Oraon (Matigara Tea Estate), Mr. Suresh Rai (Makaibari Tea Estate), Mr. Sriman (Tamsong Tea Estate), Mr. Chaudhury (Soom Tea Estate), Mr. Nabin Singha (N.B.U.) and others.

I also express my thankfulness to my senior colleagues, present scholars and students of the Laboratory and also my sincere thanks to the seniors, scholars and friends of other laboratories of the Botany Department. I also convey my thankfulness to Mr. M. U. Alam and other faculties of Medicinal Plant Garden of North Bengal University.

I'm ever grateful for constant cooperation and helpful hand extended by Mr. Rajib Biswas (Junior Scholar) from this Laboratory without his help it was impossible for me to compile the present work. I give him special thanks for his always-helping attitude and of course all the best wishes for his research work too.

I am thankful to the Director, Botanical Survey of India for permitting me to work in Calcutta and Gangtok Herbaria of the institute.

I would also like to convey my sincere gratitude to the members of IAAT specially Prof. A. K. Pandey (T. M. Bhagalpur University), Prof. T. R. Sahu (Dr. H.S. Gaur University, Sagar), Dr. Narasimhan (Madras Christian College), Dr. Janarthanam (Goa University) and others for their comments and suggestions in a number of ways and encouraging assistance to me in my research activities.

I also express my hearty thankfulness to my all friends and well-wishers who constantly persuaded me to complete this work and extended hearty support to me. I would pay special emphasis to thank specially Mrs. Ruby Das for her care, cooperation, spontaneous helping attitude and supports in different ways towards me.

Last but not the least, I am ever indebted to my beloved parents specially to my aunt, my brothers, sister and to little Bhutu without whose constant support, love and care this work would not have been completed.

I sincerely convey my thanks to all of them whom I may have missed acknowledging.

North Bengal University
