C H A P T E R - I

Review of Previous work . . .	1
Scope and Object of the Present work . . .	69
References	88

C H A P T E R - II

Experimental Technique Used in the Investigation.,.	98
---	----

C H A P T E R - III

Breakdown of Air in Crossed Radio-Frequency and D.C. Electric Field	124
--	-----

C H A P T E R - IV

Radio-Frequency Electric Field Breakdown of gases in Presence of Transverse Magnetic field (Low Intensity).	136
Radio-Frequency Electric Field Breakdown of gases in Presence of Transverse Magnetic Field (High Intensity)	156

C H A P T E R - V

Glow Discharge Current in Presence of Longitudinal Magnetic Field	180
--	-----

C H A P T E R - VI

Measurement of High Frequency Discharge Current in a Gas Discharge Excited by a Radio-Frequency Electric Field	200
--	-----

C H A P T E R - VII

Electrostatic Probe Measurements in Gas Discharge and Diffused Plasma with and without Presence of External Magnetic field	220
Summary of Present Work	244
